

LIST OF TABLE

Table 2.1 The name from molecular formula of Alkanes	18
Table 2.2 The name from molecular formula of Alkyl	19
Table 3.1 Research design of the developed learning module to increase students' achievement on the teaching of hydrocarbon.	28
Table 3.2 Conformity Analysis Module Learning Materials with Chemistry Education Unit Level Curriculum Content Standards	29
Table 4.1 The Result of Standard Analysis of Book Code A Contents on the Topic Hydrocarbon	40
Table 4.2 The Result of Standard Analysis of Book Code B Contents on the Topic Hydrocarbon	42
Table 4.3 The Result of Standard Analysis of Book Code C Contents on the Topic Hydrocarbon	44
Table 4.4 The Result of Standard Analysis of Book Code D Contents on the Topic Hydrocarbon	47
Table 4.5 Average Percentage of Feasibility Content, Feasibility Extension, Feasibility Depth , Feasibility Design Layout and Feasibility Language for Books that Analyzed.	48
Table 4.6 The Result of Questionnaire of Module Standardization By Chemistry Lectures, Chemistry Teachers and also International Students	51
Table 4.7 Average and standard deviation of student's Achievement in the pre-test	55
Table 4.8 Average value and standard deviation of student's achievement in Post Test-1	57
Table 4.9 Average value and standard deviation of student's achievement in Post Test-2	58
Table 4.10 Data of the post test 1 for high group in experimental and control class	60
Table 4.11 Data of the post test 1 for low group in experimental and control class	60
Table 4.12 Data of the post test 2 for high group in experimental	61

and control class

Table 4.13 Data of the post test 2 for low group in experimental
and control class
