

ACKNOWLEDGEMENT

First of all, I would like to thank God almighty who has been giving me everything to accomplish this thesis: Patience, health, wisdom, and blessing. Without all these things, I can't finish this thesis while it is a condition in order to fulfill of the requirements for the Bachelor degree from Physics Department, State University of Medan.

I would like to express the sincere gratitude to the Dean of Faculty of Mathematics and Science State University of Medan: Prof. Drs. Motlan, M.Sc, Ph.D and also as my examiner, I would like to thank my great Supervisor, Prof. Dr. Sahyar,MS,MM for guiding me and giving his precious time, and also great ideas that enable me to complete this thesis. I also want to convey my sincere gratitude to my academic supervisor, DR. Drs. Ridwan Abd.Sani, M.Si and my entire examiner: Alkafi Maas Siregar,M.Si and Drs.Makmur Sirait,M.Si. They have given me many contribute in preparing this thesis well. Beside it, I also want to convey great thanks to the principal of SMAN I Berastagi, Alberto colia, M.Pd and to Physics teacher there, K. br Sembiring,S.Si, thanks a lot for making it easy and friendly.

I want to convey a great thank you to all of lecturers for their great contribution in sharing knowledge and advice during my academic years. I could not complete this thesis well without their good contribution and ideas.

I would like to express thanks to my beloved parent: R. Ginting and F. Sitorus (the deceased) who have been giving me encouragement, Motivation, and all of support that I need in whole of my life. I myself realize that they have much love to give to me and I cannot pay for it. Then I would like to thank to my brother and sister: Andrew Valentino Ginting and Tria Puspita Dewi Ginting. Beside it I won't forget my friends in my boarding house 'KOST 121': Fenny Sitorus, Dewi Sihotang, Juniati Sembiring, Kak Natalia Girsang, Santi Manalu, and Lisna Lingga, they are great boarding house members of me and surely my second family here. Thanks for make me smile while I can't, all of you are my friends to laugh, to cry, and to share. Believe me, it means everything. Thanks to b'Rambo that have taught me when I don't understand about my research, you give me your spare time to discuss. Thanks to Ebi "tempat penitipan/peminjaman barang" without you I can't follow this final examination, hehehe. Thanks to Reslina and Lia that want to accompany me during the research. Thanks to my friends in my small group, Rosmala, Julinton, Laurent (also as my classmate) and kak Nova that want to pray

for me. Also thanks to my Eklesia Choir that give me place to grow up. Last but not least, I want to express sincere gratitude to my special one: MJ.Tampubolon for giving me support, compassion, care, ideas, and also reference to complete this thesis.

I will never forget my entire close friend during my academic years here, Ester, Nawi, Zia, Febri, Tika, Majid, Lukman, Azwar, Alfian, Risdo, Nurul, Ella, Arini, Bobby and to all friends that I can't mention here. I will not forget everything that we've shared together.

Finally, I myself realize that this thesis is still far from being perfect, therefore I would appreciate and welcome some constructive advice to improve this thesis and I hope it will be precious as it should be.
