CHAPTER V
CONCLUSION AND SUGGESTION

A. Conclusion

Based on the result of this research, the researcher could make the conclusion that the application of video as a media could improve the student's achievement in writing news item text in the class X-12 at MAN 2 Model Medan. The improvement of the students can be seen from the score of the students in the tests.

Furthermore, from the qualitative data, the writer concluded that applying video could help the students to get involved in teaching learning process because the students felt interesting in a comfortable atmosphere in the class in following teaching learning process. And the last, students also got experience and knowledge from watching videos and the students could be easier to write a text without wasting time just to remember or gather the idea or topic that they will write.

B. Suggestion

Based on the finding on this research, it is indicated that students' achievement in writing news item text improved by using video. In relation to the conclusion above, some suggestions are pointed out as follow:

1. It is important for English teachers to apply video in teaching writing news item text since this media can improve students' achievement in writing news item text.
2. It is important for students to practice the writing by using video since it can improve the students' interest in writing English text.
3. Other researcher improve the research about video dealing with writing skill, especially in writing news item text.
