CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Reading text materials which were developed for students grade X of SMA Negeri 2 Medan included recount text and narrative text. The topics were developed for recount text related to the historic event such as Bandung Lautan Api, and Bomb in Bali. Meanwhile, the topics were developed for narrative text related to the legend of folklore such as Maninjau Lake, and Batu Gantung. All those text supported by the picture. Actually, the researcher developed the reading materials focuses on how the students motivated and interested to learn about English reading. Therefore, the researcher arranged the materials full picture, color, and simple. The picture related to the content of text which used to help the students in predicting the information in the text.

Based on the result of the study, a number of conclusions could be stated. They are:

1. The English reading text materials which is appropriate for students grade X of SMA Negeri 2 Medan is pictured text. This conclusion found based on the need analysis.
2. The appropriate picture for available text is the picture which describe the content of the text.

3. The new reading materials were developed through six steps, they are: 1) gathering information and data, 2) analyzing the data, 3) designing the materials based on the need analysis, 4) validating the product by experts included English lecturer of State University of Medan and English teacher of SMA Negeri 2 Medan, 5) revising the product based on the validator suggestions, and 6) recomended the final product.
4. The finding of this study were percentage showed that the developed reading materials were 88.15% which were categorized as a valid materials. Meanwhile, the average for validation instruments were 4.41 which were categorized as relevant materials.

B. Suggestion

Based on the result of the study and discussion, the researcher would like to give some suggestions as following:

1. Teacher

   As the teacher, it suggested to choose the learning materials based on the student's need. The text in the availuable textbook is not always suitable for the student's need, so the teacher should be creative to find out or develop the other materials.

2. Other Researcher

   It is suggested to conduct the research about the developing of reading materials based on the problem in the school and student's learning. Then, develop the material based on the student's need. The researcher should find out many references to support the research.
