# LIST OF TABLE

Page

Table 2.1 The Syntax of Project Based Learning 17

Table 2.2 SC, BC and Indicator Material Analysis Anion 35

Table 2.3 Innovations That Have Been Integrated in The Learning Material 36

Table 2.4 Project in The Learning Material and Competence to be Achieved 37

Table 2.5 The performances of innovated chemistry learning material based on the respondents opinions. The number is the average value based on the opinion of expert judgments of Chemistry Lecturer (L) and the response from bilingual chemistry students (S). The total average is the average value from 23 respondents. 39

Table 2.6 The performances of innovated chemistry learning material based on the perception assessment. 41

Table 2.7 Activities Assessment By Observer During Experiment Done 43
