Dear Author,

your manuscript is still in the process of review. To our journal every year is directed of about 3000 of contribution and 4% from them we are publishing. I think, that because of the semester break in the Polish universities our reviewers wil have a more time for making opinions.

Additionally, you affiliation is very poor described. Can you introduce yourself more precisely?

Sincerely,
Prof. Stanislaw Juszczyk

Dear Author,

thank you very much for a contribution sent to The New Educational Review. However, before sending it to our reviewers it should fulfill the formal requirements of our journal, placed on our website: "For Authors":

1. your text is to long; we have limited a lenght of every manuscript to maximum 25,000 of characters with spaces.
2. the research should be prepared according with the social sciences methodology with the use of triangulation of: research methods/techniques, samples, and theories.
3. we would like to present the most important results of the original empirical research. Many scientists from your country published in TNER the results of the research on similar subject, but you do not quote them. The International Scientific Board of our journal can not accept such situation, that a new author is not familiar with the previous publications on similar subjects in TNER.
4. every author is kindly asked to send a scan of the filled in and signed by all of the authors the declaration form, placed on our website.

We are waiting for the improved version of the manuscript, along the reviewer's suggestions.

Sincerely,
Full Professor Stanislaw JUSZCZYK
