

ACKNOWLEDGEMENTS

First of all I would like to devote my greatest gratitude to Allah SWT who is The Almighty, The Most Gracious and The Most Merciful for his blessing, guidance, strength, health, and favour which have been being given to me so that I could go with this life and finally finish this thesis especially.

I would like to extend thanks to the many people who are so generously contributed to the work presented in this thesis.

Special mention goes to my enthusiastic supervisor, Dr. E. Elvis Napitupulu, M.S. This degree has been an amazing experience and I think Mr. Elvis wholeheartedly, not only for his tremendous academic support, but also for giving me so many wonderful opportunities, guidance, and motivations.

Similarly, profound gratitude goes to Dr. Edy Surya, M.Si., Dr. Izwita Dewi, M.Pd., and Prof. Dr. Bornok Sinaga, M.Pd., who have been truly dedicated examiners. I am particularly indebted to them for their constant faith, advices, and suggestions, guidance, and constructive critics in perfecting this thesis.

Special mention also goes to Prof. Dr. Syawal Gultom, M.Pd as the head of University Negeri Medan (MEDAN), Prof. Drs. Motlan Sirait, M.Sc, Ph.D as the dean of Mathematics and Natural Sciences Faculty, Dr. Edy Surya, M.Si as the chief of Mathematics Department and Prof. Dr. rer. nat. Binari Manurung, M.Si as the coordinator of Bilingual and International Program. And last but not least, Mr. Sam as the assistant of Bilingual and International Program. I am so hugely appreciative to them for their times, especially for being so dedicated to their roles in supporting me completing this thesis.

Special mention goes to Dwi Maulida Sari and Mrs. Hotma Rambe S.Pd as my observer. And I also say gratitude for my research school SMP Negeri 3 Kisaran having me time to do this research.

Special mention goes to all my colleagues who have been involved in supporting me to complete my education and my thesis. A million thank are delivered to Asifa, Dwi, Sapta, Widi, Leni, Mawaddah, Yohannes, and all my Bilingual Mathematics students of 2011 for all unforgettable moments. I find it so difficult to choose which one not best not best of our moments but everything must be totally amazing. I also thank all seniors in FMIPA for supporting my education and my PPL colleagues in SMA Negeri 1 Tebing Tinggi for all great experiences.

Finally, I say thanks go to my dad Jamaluddin, my mom Rosida, and brother Husni, my elder sister Wirda, my younger sister Zulfa and all my extended family for almost unbelievable supports. They are the most precious people in my world and I dedicate this thesis for them.
