ACKNOWLEDGEMENT

Alhamdulillahirobbil'alamin, praise and gratitude to Allah SWT, the Lord of the universe, who always gives his gracious mercy and tremendous blessing that has helped the author complete this thesis entitled: "**The Development of Teaching Material of In Vitro Plant Breeding Based on Scientific Literacy**". This thesis is prepared to fulfill one of the requirements needed to achieve a Bachelor of Education degree in Bilingual Biology Education Study Program, Faculty of Mathematics and Natural Sciences, Universitas Negeri Medan, starting from the stage of determining the research idea, arranging and presenting the proposal in seminar, conducting research, preparing thesis, and following the last thesis exams.

The author realizes that the preparation of this thesis could not be completed without the help and support of various parties, either directly or indirectly. Through this opportunity, the author would like to express her gratitude to all those who have helped in the preparation of this thesis. A big thank you is covered to Mrs. Prof. Dr. Fauziyah Harahap. M.Si. as a Thesis Supervisor, for her extraordinary guidance, motivation, and direction to the author from the beginning to the completion of the thesis writing so that all stages in the preparation of this thesis can be passed well. To Mrs. Dra. Cicik Suriani, M.Si. as the Academic Supervisor, who has provided supports and advices during the 4 years the author has studied. To Mr. Dr. Hasruddin, M.Pd. as the Head of Department of Biology, Mr. Wasis Wuyung Wisnu Brata, S.Pd., M.Pd. as the Head of Biology Education Study Program, Mrs. Endang Sulistyarini Gultom, S.Si., M.Sc., Apt. as Secretary of Biology Education Study Program, and all Lecturers who have provided motivation and provided writers with knowledge and experience. To Mr. Dr. Syahmi Edi, M.Si., Mr. Syarifuddin, M.Sc., Ph.D., and Mr. Prof. Dr. rer. nat. Binary Manurung, M.Si. as Examiner Lecturer, who have provided criticism and suggestions for improvement starting from the proposal seminar to the stage of defending the thesis, so that this thesis can be completed properly as well. To Dr. Syahmi Edi, M.Si., Mr. Wasis Wuyung Wisnu Brata, S.Pd., M.Pd., and Mr. Drs. Gamal Kartono, M.Si. as a validator who has corrected, assessed and provided

suggestions for improvement of the textbooks that the author compiled. To Mrs. Dr. Tumiur Gultom, S.P., M.P. as a lecturer in tissue culture courses and students Department of Biology, FMIPA, Universitas Negeri Medan who have been pleased to provide an assessment of the textbooks that the author compiled.

Especially the author would like to thank the late beloved grandmother, Mrs. Hj. Sujanti, who during her time there always gave encouragement, motivation, prayers, moral and material assistance. Especially the author would like to thank my beloved father Mr. Andri Yudistira, S.H. and my beloved mother Mrs. Rini Lestari, who always gives love, support, prayers, moral and material assistance. In particular, the author would like to thank my beloved older sister Nurul Azizah and my beloved little brother Muhammad Aly Afzaal who have always provided encouragement, support and assistance, as well as their attention so far.

Thank you to my comrades in arms during the research, Candra, Jihan, Monica, Romauli, and Veronika who have helped the writer a lot while doing research at Department of Biology, Faculty of Mathematics and Natural Sciences, Universitas Negeri Medan, as well as fellow students of class 2017, Internship colleagues, KKN colleagues, especially colleagues in Bilingual Biology Education 2017 class who have shared stories, laughter, ups and downs during the study process. With all humility, once again thank you to all those who have helped the author in completing this study.

The author has tried her best in completing this thesis, but the author realizes that this thesis still has many weaknesses and limitations both in terms of content and grammar. However, while expecting constructive criticism and suggestions, the author also hopes that this thesis can be useful for related parties.
