LIST OF TABLE

Table 2.1  Cooperative Learning Syntax  
Table 3.1  The Steps in Cycle I  
Table 3.2  The Steps in Cycle II  
Table 3.3  Interpretation of $r_{11}$ Value  
Table 3.4  Interpretation of $r$ Value  
Table 3.5  The Scoring Criteria of Mathematical Communication Ability  
Table 3.6  The Scoring Criteria of the Students’ Answer  
Table 3.7  Criteria of Student’ Mathematical Communication Ability  
Table 3.7  Interpretation of Gain Normalization  
Table 3.8  Interpretation of Students’ Activity  
Table 3.9  Interpretation of Teacher’s Activity  
Table 4.1  The Validity Result of Mathematical Communication Ability Test  
Table 4.2  The Testing Result of Mathematical Communication Ability’s Validity Cycle I  
Table 4.3  The Testing Result of Mathematical Communication Ability’s Validity Cycle II  
Table 4.4  The Testing Result of Mathematical Communication Ability’s Reliability  
Table 4.5  The Result of Mathematical Communication Ability On Initial Observation  
Table 4.6  The Result of Teacher’s Observations in Cycle I  
Table 4.7  The Result of Student’s Observations in Cycle I  
Table 4.8  The Results of Students’ Mathematical Communication Ability Cycle I  
Table 4.9  Data of Mastery Learning of Class to Communication Ability Test I  
Table 4.10  The results of Cycle I
| Table 4.11 | Observations of Teacher’s Activity in Cycle II | 93 |
| Table 4.12 | Observations of Student’s Activity in Cycle II | 94 |
| Table 4.13 | The Results of Students’ Mathematical Communication Ability Cycle II | 96 |
| Table 4.14 | Data of Mastery Learning of Class to Mathematical Communication Ability Test II | 98 |
| Table 4.15 | Description of the Improvement in Students’ Mathematical Communication Based on Test Cycle I and Cycle II | 100 |
| Table 4.16 | The Comparison Between Cycle I and Cycle II | 106 |
| Table 4.17 | The results obtained from Cycle II | 107 |
