

ABSTRAK

Erwanto Purba. NIM 071255110017. Hubungan Perhatian Orang Tua Dan Minat Kejuruan Otomotif Dengan Hasil Belajar Kompetensi Kejuruan Siswa Tingkat II Program Keahlian Teknik Otomotif SMK Immanuel Medan T.A 2011/2012. Skripsi. Fakultas Teknik. Jurusan Teknik Mesin. Program Studi Pendidikan Teknik Mesin, UNIMED 2012.

Permasalahan dalam penelitian ini adalah banyak siswa yang memiliki hasil belajar kompetensi kejuruan kurang dan berhubungan dengan perhatian orang tua dan minat kejuruan otomotif. Penelitian ini bertujuan untuk mengetahui kecenderungan dan keberartian Hubungan Perhatian Orang Tua Dan Minat Kejuruan Otomotif Dengan Hasil Belajar Kompetensi Kejuruan Siswa Tingkat II Program Keahlian Teknik Otomotif SMK Immanuel Medan T.A 2011/2012.

Penelitian ini dilaksanakan di SMK Immanuel Medan yang terletak di Jl. Gatot Subroto No. 325 Kota Medan pada semester Genap. Populasi dalam penelitian ini seluruh siswa kelas II Program Keahlian Teknik Otomotif SMK Immanuel Medan yang berjumlah 83 orang dan teknik pengambilan sampel dipilih secara acak (random sampling) sebesar 82% dari populasi yaitu sebanyak 68 orang. Data penelitian ini diperoleh melalui angket dan jumlah data mentah siswa semester III dengan uji kompetensi siswa. Uji Validitas yang dilakukan untuk analisis butir angket digunakan rumus korelasi product moment, uji reliabilitasnya dihitung dengan rumus alpha speert. Teknik analisis data untuk menguji hipotesis digunakan korelasi parsial dan korelasi ganda.

Hasil penelitian ini menunjukkan (1) Terdapat hubungan yang positif dan signifikan antara perhatian orang tua dengan hasil belajar kompetensi kejuruan siswa tingkat II program keahlian teknik otomotif SMK Immanuel Medan T.A 2011/2012 sebesar $r_{y1,2} = 0,806$; (2) Terdapat hubungan yang positif dan signifikan antara minat kejuruan otomotif dengan hasil belajar kompetensi kejuruan siswa tingkat II program keahlian teknik otomotif SMK Immanuel Medan T.A 2011/2012 sebesar $r_{y2,1} = 0,550$; (3) Terdapat hubungan yang positif dan signifikan secara bersama-sama antara perhatian orang tua dan minat kejuruan otomotif dengan hasil belajar kompetensi kejuruan siswa tingkat II program keahlian teknik otomotif SMK Immanuel Medan T.A 2011/2012 sebesar $R = 0,994$.

Perhitungan sumbangan relatif (SR) dan sumbangan efektif (SE) perhatian orang tua terhadap hasil belajar kompetensi kejuruan yaitu $SR = 66,42\%$ dan $SE = 65,68\%$. Perhitungan sumbangan relatif (SR) dan sumbangan efektif (SE) minat kejuruan otomotif terhadap hasil belajar kompetensi kejuruan yaitu $SR = 33,58\%$ dan $SE = 33,21\%$.

Kata Kunci: Perhatian Orang Tua, Minat Kejuruan Otomotif, Hasil Belajar Kompetensi Kejuruan.

ABSTRACT

Erwanto Purba. NIM 071 255 110 017. The correlation between Parent's attention and Vocational Automotive Interests With learning achievement's of students vocational competency of II grade Automotive Engineering Vocational Skills Program in Immanuel 2011/2012 year. Thesis. Faculty of Engineering. Department of Mechanical Engineering. Mechanical Engineering Program Educational Study, UNIMED 2012.

The problem of this study was so many students who got bad scores of vocational competency and it has correlation with the parent's attention and automotive vocational interests. This study aims to identify the significance and disposition of correlation parent's attention and Vocational Automotive Interests with learning achievement of the students SMK grade II Automotive Engineering of SMK Immanuel 2011/2012 year

This study was conducted in SMK Immanuel Medan located on Jl. Gatot Subroto No.. 325 Medan in even semester. The population in this research was all students in grade II of Automotive Engineering SMK Immanuel amounted to 83 students and the sampling technique was chosen by random (random sampling). 82% of the population is amounted to 68 people. The data were obtained through questionnaires and the amount of raw data was test the students' third semester through competency test. Validity Test was conducted to analysis each question of questionnaire product moment correlation formula was used. Alpha speert.was used to calculated reliability test. The partial correlation and multiple correlation was used to test the hypothesis in data analyze technique.

The results of this study shows that; (1) There is a positive and significant correlation between parent's attention with student learning achievements grade II vocational competency program of SMK Immanuel automotive engineering 2011/2012 year, amounted to $r_{y1,2} = 0.806$, (2) There is a positive and significant correlation between the interesting interest in automotive vocational learning achievements of students' vocational competency grade II vocational automotive SMK Immanuel 2011/2012 year amounted to $r_{y2,1} = 0.550$, (3) There is a positive and significant co-operation between parent's attention and students' SMK interest with students' learning achievements grade II vocational competency program SMK Immanuel automotive engineering 2011/2012 year, amounted to $R = 0,994$.

Calculation of the relative contribution (SR) and the effective contribution (SE) parent's attention on students' learning achievement is $SR = 66,42\%$ and $SE = 65,68\%$. Calculation of student's interest on learning achievement of vocational competence is $SR = 33,58\%$ and $SE = 33,21\%$.

Keywords: Parent's attention, interests of Vocational Automotive, Vocational Competency Learning achievement.
