DAFTAR TABEL

Tabel 1.1 Perbandingan nilai rata-rata UAS Semester II (Genap) Ilmu Pengetahuan Alam siswa kelas V SD Swasta Muhammadiyah 01 Pematangsiantar 4
Tabel 2.1 Fase Pelaksanaan Pembelajaran Berbasis Masalah ....................... 40
Tabel 3.1 Jumlah Populasi Penelitian ............................................................ 59
Tabel 3.2 Desain Penelitian faktorial 2x2 ...................................................... 64
Tabel 3.3 Kisi-Kisi Tes Hasil Belajar IPA ...................................................... 69
Tabel 3.4 Tingkat Kesukaran Soal ................................................................... 70
Tabel 3.5 Tabel Indeks Daya Beda Soal ............................................................ 71
Tabel 3.6 Kisi-kisi Angket Motivasi Belajar .................................................... 73
Tabel 4.1 Data Pretes Hasil Belajar Siswa ..................................................... 78
Tabel 4.2 Uji Normalitas Data Pretes .............................................................. 79
Tabel 4.3 Uji Homogenitas Data Pretes .......................................................... 82
Tabel 4.4 Data Hasil Angket Motivasi ............................................................ 82
Tabel 4.5 Pengelompokan Siswa Berdasarkan Motivasi ............................... 83
Tabel 4.6 Data Postes Hasil Belajar Siswa ..................................................... 86
Tabel 4.7 Pengelompokan Nilai Postes Siswa Berdasarkan Tingkat Motivasi ................................................................. 88
Tabel 4.8 Pengelompokan Nilai Postes Berdasarkan Motivasi ....................... 89
Tabel 4.9 Desain Faktorial Rerata 2x2 ........................................................... 91
Tabel 4.10 Data Faktor Antar Subjek ............................................................... 92
Tabel 4.11 Hasil Uji Normalitas Hasil Belajar Postes siswa......................... 92
Tabel 4.12 Uji Homogenitas Antar Kelompok ............................................... 93
Tabel 4.13 Hasil Uji Anova Dua Jalur ............................................................. 94
Tabel 4.14 Post Hoc Test Dengan Uji Scheffe ............................................ 97
