LIST OF TABLES

Table 1.1 Students’ Achievement on Writing Ability................................................. 3
Table 2.1 Students Perspective in characteristics of PBL ........................................... 50
Table 3.1 Factorial Research Design 2X2................................................................. 65
Table 4.1 Summary of Research Data Description..................................................... 74
Table 4.2 The distribution Frequency for Students’ Achievement in Writing Text
  By PjBL Strategy ................................................................................................... 75
Table 4.3 The distribution Frequency for Students’ Achievement in Writing Text
  By PBL Strategy ................................................................................................... 77
Table 4.4 The distribution Frequency for Students’ Achievement in Writing Text
  For those who have high self-concept ................................................................... 78
Table 4.5 The distribution Frequency for Students’ Achievement in Writing Text
  For those who have Low self-concept .................................................................... 80
Table 4.6 Frequency distribution of the Scores of Students Taught by PjBL with
  High self- Concept ............................................................................................... 81
Table 4.7 Frequency distribution of the Scores of Students Taught by PjBL with
  Low self- Concept ............................................................................................... 83
Table 4.8 Frequency distribution of the Scores of Students Taught by PBL with
  High self- Concept ............................................................................................... 84
Table 4.9 Frequency distribution of the Scores of Students Taught by PBL with
  Low self- Concept ............................................................................................... 86
Table 4.10 Normality TEST ..................................................................................... 87
Table 4.11 The Result of Homogeneity Testing in Teaching....................................... 88
Table 4.12 Result of Self Regulations........................................................................ 89
Table 4.13 Summary on the Result of Homogeneity Test ........................................... 89
Table 4.14 Two- Way ANOVA ............................................................................... 90
Table 4.15 Summary on the Calculation of Two- Way ANOVA................................. 91
