LIST OF FIGURE

Figure 2.1. Various shapes and specialization of different cell functions 17
Figure 2.2. Prokaryotic cell and cell structure of Animal and Plant Cells. 18
Figure 2.3. The general structure of a cell that shows a variety of cell organelles as executive function or activity 19
Figure 2.4. The Structure of the Endoplasmic Reticulum 21
Figure 2.5. The structure of the Golgi Apparatus 21
Figure 2.6. Structure of Mitochondria 23
Figure 2.7. Structure of Chloroplasts 24
Figure 2.8. Fibers Making Up the Cytoskeleton 25
Figure 2.9. Model of cell membrane 26
Figure 2.10. Diffusion solution 27
Figure 2.11. The transfer of water penetrates selectively permeable membrane in osmosis events 28
Figure 2.12. Active Transport Mechanism 29
Figure 2.13. Step-by-step Process of Pinositosis 30
Figure 2.14. The Process of Phagocytosis 31
Figure 3.1. The six-point scale (0-5) used on (CRI) 40
Figure 4.1. Interview test in sub-concept (question) 2 41
Figure 4.2. Interview test in sub-concept (question) 4 41
Figure 4.3. Interview test in sub-concept (question) 13 43
Figure 4.4. Interview test in sub-concept (question) 17 44
Figure 4.5. Sources percentage of students’ misconceptions for each concept 46
