DAFTAR ISI

ABSTARK................................................................. i
KATA PENGANTAR...................................................... ii
DAFTAR ISI................................................................. iv
DAFTAR TABEL ............................................................. vii
DAFTAR GAMBAR......................................................... viii
DAFTAR LAMPIRAN ........................................................ ix

BAB I. PENDAHULUAN .................................................. 1
A. Latar Belakang Masalah ............................................. 1
B. Identifikasi Masalah ................................................. 8
C. Pembatasan Masalah ............................................... 9
D. Rumusan Masalah ................................................... 9
E. Tujuan Penelitian ..................................................... 9
F. Manfaat Penelitian ................................................... 10

BAB II. LANDASAN TEORITIS ........................................ 11
A. Kajian Teoritis ....................................................... 11
   1. Hakikat Sepak Takraw ......................................... 11
   2. Hakikat Kondisi Fisik .......................................... 16
      A. Kondisi Fisik .................................................. 20
         2.1 Kekuatan (Strength) ....................................... 20
         2.2 Kecepatan (Speed) ....................................... 22
         2.3 Daya Tahan Otot (Muscular Endurance) ....... 23
         2.4 Daya Tahan (Cardio vascular) ....................... 24
         2.5 Daya Ledak (Power) ..................................... 25
         2.6 Kelentukan (Flexibility) ............................... 26
         2.7 Kelincahan (Agility) ..................................... 28
   3. Hakikat Teknik ................................................... 31
      a. Teknik Dasar .................................................. 32
         1. Teknik Sepakan (Menyepak) ......................... 32
            1.1 Sepak Sila ............................................. 33
1.2 Sepak Kura/Sepak Kuda ........................................... 34
1.3 Sepak Cungkil .................................................. 35
1.4 Sepak Badek/Sepak Simpuh .................................. 36
1.5 Sepak Tapak .................................................... 37
2. Teknik Memaha .................................................. 38
3. Mendada/Kontrol Dada ............................................ 39
4. Membahu/Kontrol Bahu ......................................... 40
5. Menyundul Bola/Main Kepala (Heading) ................... 41
b. Teknik Khusus .................................................... 42
   1. Sepak Mula ................................................... 42
   2. Menerima Sepak Mula ....................................... 43
   3. Mengumpan .................................................. 44
   4. Serangan atau Smash ....................................... 44
      4.1 Smash Gulung ............................................. 45
      4.2 Smash Kedeng ........................................... 46
      4.3 Smash Gunting ........................................... 46
   5. Menahan Serangan (Block) ................................ 47
B. Kerangka Berfikir .................................................. 48

BAB III. METODOLOGI PENELITIAN ....................................... 52
A. Lokasi dan Waktu Penelitian ..................................... 52
   1. Lokasi Penelitian ............................................. 52
   2. Waktu Penelitian ............................................. 52
B. Populasi dan Sampel ............................................... 52
C. Metode Penelitian ................................................. 52
D. Instrumen Penelitian .............................................. 53
   1. Instrumen Tes Kondisi Fisik ................................. 53
   2. Instrumen Tes Teknik Dasar Sepak Takraw ............... 54
E. Prosedur Penelitian ............................................... 54
   1. Tes Kondisi Fisik ............................................. 54
   2. Tes Teknik Dalam Sepak Takraw ............................ 61

vi
BAB IV. HASIL PENELITIAN DAN PEMBAHASAN..........................70
A. Deskripsi Hasil Penelitian ......................................................70
   1. Hasil Rata-Rata Kondisi Fisik ........................................72
   2. Hasil Rata-Rata Teknik ..................................................73
B. Hasil Penelitian ...................................................................76
   1. Hasil Kondisi Fisik.........................................................76
   2. Hasil Teknik..................................................................78
B. Penjelasan Hasil Penelitian Konisi fisik dan Teknik PerAtlet....79
C. Pembahasan Hasil Penelitian..................................................86
   1. Kondisi Fisik.................................................................86
   2. Teknik...........................................................................88

BAB V. KESIMPULAN DAN SARAN...............................
A. Kesimpulan....................................................................91
B. Saran..............................................................................91
