ABSTRAK ........................................................................................................ i

KATA PENGANTAR .................................................................................... ii

DAFTAR ISI ............................................................................................... iv

DAFTAR TABEL ........................................................................................... vi

DAFTAR LAMPIRAN ................................................................................... vii

BAB I PENDAHULUAN ........................................................................ 1

A. Latar Belakang Masalah ................................................................ 1
B. Identifikasi Masalah ...................................................................... 4
C. Pembatasan Masalah ..................................................................... 5
D. Rumusan Masalah ......................................................................... 5
E. Tujuan Penelitian .......................................................................... 6
F. Manfaat Penelitian ........................................................................ 6

BAB II KAJIAN TEORITIS DAN HIPOTESIS .................................. 7

A. Deskripsi Teori ............................................................................... 7

1. Media Audio Visual ................................................................. 7
2. Media Video Pembelajaran ....................................................... 10
3. Media Power Point ................................................................... 18
4. Hasil Belajar Pengolahan Soup .............................................. 20
B. Penelitian Yang Relevan ............................................................. 28
C. Kerangka Berpikir ...................................................................... 29
D. Hipotesis Penelitian ................................................................. 31

BAB III METODOLOGI PENELITIAN ........................................ 32

A. Desain Penelitian ................................................................. 32
B. Defenisi Operasional dan Variabel Penelitian .................. 32

1. Defenisi Operasional ................................................................. 32
2. Variabel Penelitian ................................................................. 33
C. Populasi dan Sampel Penelitian ......................................... 33

1. Populasi Penelitian ................................................................. 33
2. Sampel Penelitian ................................................................. 34
D. Metode dan Rancangan Penelitian ....................................... 34
E. Prosedur Pelaksanaan Penelitian ........................................ 35
F. Instrumen dan Teknik Pengumpulan Data .......................... 38
1. Intrumen Penelitian ...................................................... 38
2. Uji Coba Instrument Penelitian ................................................ 39
   a. Uji Validitas Tes ............................................................... 40
   b. Reliabilitas Tes ............................................................. 41
   c. Indeks Kesukaran Test ...................................................... 42
   d. Daya Pembeda .............................................................. 42
3. Hasil Uji Coba Instrumen ......................................................... 43
G. Teknik Analisis Data ............................................................... 45
   1. Deskripsi Data .......................................................................... 45
   2. Tingkat Kecenderungan ........................................................... 46
   3. Uji Persyaratan Analisis ........................................................... 46
      a. Uji Normalitas ................................................................... 47
      b. Uji Homogenitas ............................................................... 47
   4. Uji Hipotesis ............................................................................. 48
BAB IV HASIL PENELITIAN DAN PEMBAHASAN ............... 49
   A. Deskripsi Data Penelitian .............................................................. 49
   B. Tingkat Kecenderungan ........................................................... 53
   C. Uji Persyaratan Analisis ........................................................... 54
      1. Uji Normalitas .................................................................. 55
      2. Uji Homogenitas ............................................................... 57
   D. Pengujian Hipotesis ................................................................. 58
   E. Pembahasan Penelitian .......................................................... 59
BAB V KESIMPULAN DAN SARAN ............................................. 61
   A. Kesimpulan ................................................................................... 61
   B. Saran .............................................................................................. 62
