LIST OF TABLES

Table 1.1  The Percentage of Understanding Problem Aspect From Students’ Mathematical Problem Solving Ability Tes (Initial)  
Table 1.2  The Percentage of Devising Plan From Students’ Aspect Mathematical Problem Solving Ability Tes (Initial)  
Table 1.3  The Percentage of Implementing Problem Solving Plan Aspect From students’ Mathematical Problem Solving Ability Tes (Initial)  
Table 1.4  The Percentage of Looking back Aspect From Students’ Mathematical Problem Solving Ability Tes (Initial)  
Table 1.5  The Percentage of Students’ Mathematical Problem Solving Ability Tes (Initial)  
Table 2.1  Syntax of Problem Based Learning  
Table 3.1  Description about cycle I  
Table 3.2  Description about cycle II  
Table 3.3  Scoring Guidelines of mathematical problem solving Ability  
Table 3.4  The Level of Students’ Mathematical Problem Solving Ability  
Table 3.5  The level of assessment learning’s observation sheet  
Table 4.1  The Percentage of Understanding Problem From Students’ Mathematical Problem Solving Ability Tes (Initial)  
Table 4.2  The Percentage of Devising Plan From Students’ Aspect Mathematical Problem Solving Ability Tes (Initial)  
Table 4.3  The Percentage of Implementing Problem Solving Plan From students’ mathematical problem solving ability Tes (Initial)
Table 4.4  The Percentage of Looking back From students’ mathematical problem solving ability Tes (Initial)  
Table 4.5  The Percentage of students’ mathematical problem solving ability Tes (Initial)  
Table 4.6  The Percentage of Understanding Problem From students’ mathematical problem solving ability Tes I  
Table 4.7  The Percentage of Devising Plan From students’ mathematical problem solving ability Tes I  
Table 4.8  The Percentage of Implementing Problem Solving Plan From students mathematical problem solving ability Tes I  
Table 4.9  The Percentage of Looking back From students’ mathematical problem solving ability Tes I  
Table 4.10  The Result of students’ mathematical problem solving ability Tes I  
Table 4.11  Description of observation teacher activity cycle I  
Table 4.12  The Percentage of Understanding Problem From students’ mathematical problem solving ability Tes II  
Table 4.13  The Percentage of Divising Plan From students’ mathematical problem solving ability Tes II  
Table 4.14  The Percentage of Implementing Problem Solving plan From students mathematical problem solving ability Tes II  
Table 4.15  The Percentage of Looking back From students’ mathematical problem solving ability Tes II  
Table 4.16  The Percentage of students’ mathematical problem solving ability Tes II  
Table 4.17  Description of observation teacher activity cycle II  
Table 4.18  The Increasing of Students’ Mathematical Problem Solving Ability 1st Cycle and 2nd Cycle  
Table 4.19  The observation Results of Teacher Activity in Implementing PBL Cycle I and Cycle II
