

PREFACE

Praise and thanks to Allah Subhanallahu Wata'ala Who has give for all the graces and blessings that provide health and wisdom to the author such that the author could finish this thesis well. This thesis which entitled "Developing Mathematics Problem of PISA Models Base Realistic Approach to Measure The Ability of Mathematical Problem Solving of Student Junior High School" is submitted in order to get the academic title of Sarjana Pendidikan from Mathematics Department, FMIPA Unimed.

In this part, the author would like to thank for all supports which gained for completion of this thesis. Special thanks to Prof. Dr. Hasratuddin, M.Pd., as thesis supervisor who has provided guidance, direction and advice from the beginning until the finishing part of this thesis. Great thanks are also due to Dr. Edy Surya, M.Si., Dr. E. Elvis Napitupulu, M.S., and Dr. Nerli Khairani, M,Si., as thesis examiners who have provided builded suggestion and revision in the completion of this thesis. Thanks also extended for Dr. W. Rajagukguk, M.Pd as academic supervisor and also for all lecturers in FMIPA Unimed.

The author also expressed sincerely thanks for Prof. Dr. Syawal Gultom, M.Si as Rector of Unimed, Dr. Asrin Lubis, M.Pd as Dean of Mathematics and Natural Sciences Faculty, Dr. Iis Siti Jahro, M.Si as Coordinator of Bilingual Program, Dr. Edy Surya, M.Si as Head of Mathematics Department, Drs. Yasifati Hia, M.Si as Secretary of Mathematics Education, and all staff employess which supported in helping author.

Appreciation also present to Ariffuddin, S.Pd as Headmaster in SMP Negeri 6 Medan, M. Sihombing, S.Pd as Mathematics teacher who has provide guidance when the research was held and all teachers and staff employes who helped author conduction the research well. Another thanks expressed by the author to all of students in SMP Negeri 6 Medan for cooperative and helping when the research.

Most special thanks especially would like to express for my beloved father Mr. Antoni Pilliyang, and my mother Mrs. Drs. Rosnidar also older younger sister Ressay Daryanton and Raihana El-Zhafira and younger brother M. Ridho Daryanton and M. Robby Daryanton and all family who have supported, material, prayed, and gave the author encouragement and funding to complete the study in Mathematics Department.

The author also thanks to Diamond members Maulida Hapni, Findi Septiani, Windy Erlisa, Tya Rizki Utami, and to Good Boys members Bastian Syah Putra, Andre Tahir Nst and who have made my life was happy, enjoyable and memorable. Also big thanks for second family of BilMath 2013: Yuli Anggi Harahap, Pinta Napitupulu, Ahmad Fikri Iskandar, Inokasay Simanjuntak, Beatrix Siboro, Sarah Violita Sirait, Nova H. Rumapea, Kristina Ompusunggu, for all support, sadness, happiness and togetherness during first semester until eight semester. Thanks for author's bestfriends when author was in school until now Derin P. Sianipar, Febby Faudina Nestia, Selvy Wardhani, Aprilia Suci AP, Yulham Rainanda, then the spesial friend Ridho Julham Putra. For all of PPLT Unimed 2016 SMA Negeri Plus Matauli Pandan especially Anis, Miyzan, Nida, Lia, Rosyadi and also all of my students when I was doing practice. Thanks for the supports and the motivation.

At last, the author has finished and maximally to complete this thesis. But certainly there are still some imperfection in this research. The author welcome any suggestions and constructive criticism from readers for this thesis perfectly. The author also hope the content of this research would be useful in enriching the reader's knowledge. Thank you.
