

ABSTRAK

ALI USNAN : 1133351015. Pengaruh Layanan Bimbingan Kelompok Teknik Diskusi Terhadap Komunikasi Interpersonal Mahasiswa Asal Malaysia Di Jurusan BK FIP Unimed Tahun Ajaran 2017/2018. Skripsi. Jurusan Psikologi Pendidikan dan Bimbingan. Program Studi Bimbingan Konseling. Fakultas Ilmu Pendidikan. Universitas Negeri Medan, 2017.

Penelitian ini bertujuan untuk mengetahui Pengaruh Layanan Bimbingan Kelompok Teknik Diskusi Terhadap Komunikasi Interpersonal Mahasiswa Asal Malaysia Di Jurusan BK FIP Unimed Tahun Ajaran 2017/2018. Subjek dalam penelitian ini adalah 7 orang mahasiswa asal Malaysia di Jurusan BK FIP UNIMED yang ditentukan dari hasil *screening* (penyaringan). Teknik pengumpulan data menggunakan angket, dan di analisis dengan menggunakan uji Wilcoxon. Hasil analisis data yang diperoleh dari uji wilcoxon ini adalah nilai $J_{hitung} = 0$ dengan $\alpha = 0,05$ dan $n = 7$, $J_{tabel} = 2$ dengan demikian $J_{hitung} < J_{tabel}$ ($0 < 2$). Artinya hipotesis ditolak. Hasil data *pre-test* di peroleh rata-rata 66 dan data *post-test* diperoleh rata-rata 96,1 artinya skor rata-rata mahasiswa asal Malaysia di Jurusan BK FIP UNIMED Tahun Ajaran 2017/2018 setelah mendapatkan layanan bimbingan kelompok teknik diskusi lebih tinggi. Perubahan peningkatan interval komunikasi interpersonal mahasiswa asal Malaysia di Jurusan BK FIP UNIMED Tahun Ajaran 2017/2018 setelah diberikan layanan bimbingan kelompok teknik diskusi diperoleh skorse besar 30.1 (45%). Hal ini menunjukkan ada pengaruh pemberian layanan bimbingan kelompok teknik diskusi terhadap kumunikasi interpersonal mahasiswa asal Malaysia di Jurusan BK FIP UNIMED Tahun Ajaran 2017/2018 sebesar 45 %.

Kata Kunci: Komunikasi Interpersonal, Bimbingan Kelompok Teknik Diskusi.

ABSTRACT

ALI USNAN : 1133351015. The influence of the service guidance groups of a discussion of an increase in the communications interpersonal student from Malaysia in the Department of BK FIP Unimed and guidance 2017/2018. The thesis guidance counseling. The faculty of education. University of state medan, 2016.

This study aims to determine the influence of the provision of the service guidance group techniques discussion of an increase in the communications interpersonal student from Malaysia majors BK FIP Unimed academic year 2017/2018. The subject in this study is 7 the student from Malaysia majors BK FIP Unimed prescribed the result of a screening (screening).

The techniques collecting data using inquiries, and in analysis by using test Wilcoxon. The results of analysis that data obtained from the test wilcoxon this is the value of $J_{hitung} = 0$ with $\alpha = 0,05$ and $n = 7$, $J_{tabel} = 2$ such as $J_{hitung} < J_{tabel} (0 < 2)$. That is the hypothesis rejected. The result of the data pre-test data obtained average 66 and post-test data obtained by an average of 96,1 means that the scores average student from Malaysia in the Department of BK FIP Unimed academic year 2017/2018 after getting the service guidance groups of a discussion higher. The change in an increase in frequent intervals communication interpersonal student from Malaysia in the Department BK FIP Unimed academic year 2017/2018 after given the service guidance groups of a discussion obtained scores of 30.1 (45%). This suggests there's the influence of the provision of the service guidance groups of discussion of communication interpersonal student from Malaysia in the department of BK FIP Unimed academic year 2017/2018 of 45%.

Keyword : An increase in the communications interpersonal technique discussion, guidance group.
