DAFTAR ISI
ABSTRAK .......................................................................................................................... i
KATA PENGANTAR ........................................................................................................ iii
DAFTAR ISI ..................................................................................................................... v
DAFTAR TABEL ................................................................................................................ viii
DAFTAR GAMBAR ........................................................................................................... x
DAFTAR LAMPIRAN ....................................................................................................... xi

BAB I. PENDAHULUAN
A. Latar belakang masalah .............................................................................................. 1
B. Identifikasi masalah ..................................................................................................... 7
C. Pembatasan masalah .................................................................................................. 8
D. Rumusan masalah ...................................................................................................... 8
E. Tujuan penelitian ........................................................................................................ 9
F. Manfaat penelitian ..................................................................................................... 9

BAB II. KERANGKA TEORITIS, KERANGKA BEPIKIR DAN HIPOTESIS
A. Kerangka teoritis ......................................................................................................... 11
   a. Hakikat hasil belajar anatomi .............................................................................. 11
   b. Hakikat media pembelajaran .............................................................................. 13
      1. Hakikat media model .................................................................................... 21
      2. Hakikat media gambar .................................................................................. 24
   c. Hakikat gaya belajar .......................................................................................... 26
B. Penelitian yang relevan ............................................................................................... 31
C. Kerangka berpikir ...................................................................................................... 33
   1. Perbedaan hasil belajar anatomi mahasiswa yang diajarkan
dengan menggunakan media pembelajaran model dibandingkan
dengan media pembelajaran gambar ....................................................................... 33
   2. Perbedaan hasil belajar anatomi mahasiswa yang memiliki gaya
     belajar visual dan kinestetik .............................................................................. 35
2.3.3. Interaksi penggunaan media pembelajaran dan gaya belajar

Mahasiswa dalam mempengaruhi hasil belajar anatomi .......... 38

D. Hipotesis penelitian ...................................................................................... 40

BAB III. METODOLOGI PENELITIAN

A. Lokasi dan waktu penelitian ...................................................................... 41
B. Populasi dan sampel penelitian .................................................................. 41
C. Metode dan desain penelitian ..................................................................... 42
D. Prosedur dan pelaksanaan penelitian .......................................................... 44
   1. Prosedur perlakuan ......................................................................... 44
   2. Pelaksanaan perlakuan .................................................................... 44
E. Pengontrolan perlakuan ............................................................................. 46
   1. Validitas internal ............................................................................. 47
   2. Validitas eksternal .......................................................................... 48
F. Defenisi variabel dan operasional variabel .................................................. 49
G. Pengumpulan data dan instrumen penelitian .......................................... 50
   1. Pengumpulan data ........................................................................... 50
   2. Instrumen penelitian ....................................................................... 50
H. Uji coba instrumen penelitian .................................................................... 53
I. Tehnik analisis data ............................................................................... 59

BAB IV HASIL PENELITIAN

A. Deskripsi data ............................................................................................. 61
   a. Data hasil belajar anatomi mahasiswa pada kelas perlakuan yang
      Menggunakan media pembelajaran model................................. 61
   b. Data hasil belajar anatomi mahasiswa pada kelas perlakuan yang
      Menggunakan media pembelajaran gambar ......................... 63
   c. Data hasil belajar anatomi mahasiswa yang memiliki
      gaya belajar visual ................................................................. 65
   d. Data hasil belajar anatomi mahasiswa yang memiliki
Gaya belajar kinestetik ........................................................................ 67
e. Data hasil belajar anatomi mahasiswa pada kelas perlakuan Yang menggunakan media pembelajaran model dan memiliki Gaya belajar visual................................................................. 69
f. Data hasil belajar anatomi mahasiswa pada kelas perlakuan Yang menggunakan media pembelajaran model dan memiliki Gaya belajar kinestetik................................................................. 71
g. Data hasil belajar anatomi mahasiswa pada kelas perlakuan Yang menggunakan media pembelajaran gambar dan memiliki Gaya belajar visual................................................................. 73
h. Data hasil belajar anatomi mahasiswa pada kelas perlakuan Yang menggunakan media pembelajaran gambar dan memiliki Gaya belajar kinestetik................................................................. 75

B. Pengujuan prasyarat analisis .......................................................... 77
   a. Uji normalitas............................................................................. 77
   b. Uji Homogenitas ...................................................................... 80
   c. Pengujian hipotesis .................................................................. 83

C. Pembahasan penelitian ................................................................ 90

D. Keterbatasan penelitian ............................................................... 101

BAB V KESIMPULAN, IMPLIKASI DAN SARAN ............................. 103
   A. Kesimpulan ............................................................................. 103
   B. Implikasi .................................................................................. 103
   C. Saran ....................................................................................... 107
