Submission Paper

Pembinaan Jurnal /pembinaan_jurnal@控股股东.com

Dear Dr. Ismail S. Ahmad and Dr. Akiny

I am very happy to send this message to you, after uploading the paper with my Mac it always comes out automatically, therefore let me attach the second paper.

Perbaikan Revisi 1

Dear [Name]

The topic is the same that the paper is not clear.

The quality of the paper is not very good and the academic writing is too long.

RFID may help to improve the paper and you may select areas for development.

Thani,

Editorial Office

Dear [Name],

We have received a document regarding your submission to the International Journal of Education in Mathematics, Science and Technology. "The Effectiveness of Design-Based Web Support for Reflective Education".

Our decision is: Accept.

Here are the changes made:
- Typo fixed in the title of the paper.
- Some changes are shown in the attached paper.

Please keep the paper prepared by a NISOY speaker.

Please check the attached file for the final version and make sure to check with the final paper.

Please check all papers according to APA style:

Please follow APA Style for all papers. Some changes are shown in the attached paper. Please use the feedback for all your future submissions.

Please try to write in English and avoid any errors.

Please send the final version to us after all corrections are made.

Please consider the feedback for all your future submissions since we do not make such corrections in the paper. All these suggested changes should be made by the authors before submission.

Best,
[Name]
Letter of Acceptance for Publication

Dear Indra Kasih, Eva Faridah, Samsuddin Siregar, Sabaruddin Yunis Bangun, Albadi Sinulingga I am pleased to inform you that your manuscript «EFFECTIVENESS OF SENSOR-BASED MEDIA TO ASSIST REFEREES IN VOLLEY BALL MATCHES» has been accepted for publication in the scientific Journal of International Journal of Education in Mathematics, Science and Technology, Volume 10 (2), 2022.

The issue will be published in March, 2022.

We thank you for your contribution and support!
We look forward to working with you in preparing the article for publication.

Yours sincerely,

Editor-in-Chief
Ismail Sahin

Effectiveness of Sensor-Based Media to Improve Referee Education
Dhika Kastri, Eka Fartah, Santosudah Suryaputra, Suharno Yuniarti Banyumag, Abyant Sinunggah

Abstract
The purpose of this research is to produce a new product in the form of ownership media and video assisted referee (OTT) in assisting referee leadership in a championship to enforce fair play. This research uses the Research and Development (R&D) method from Sugiyono using six stages. The place of research was carried out at the All Indonesian Volleyball Federation, Del Sambong Bogor. The population and sample in the study were the Badminton Referee University students for 2019, with a total of 44 people, with a sample of 30, and 30% deviation (31%). The results of the research show that there is an improvement of 46.3% in personal characteristics, of 26.9% in the ability to deal with emergencies, of 39.9% in the ability to adjust the situation to the needs of the event, of 28.7% in the ability to implement the rules, and of 24.3% in the ability to build the atmosphere of the event. The effect of the use of the OTT product is seen from the increase in the percentage of the number of referees who can make good decisions and control the game, which increased from 90.2% in the pre-test to 92.5% in the post-test.

Keywords
Sensor-based media, video, OTT, referees, imports.
