Kata Pengantar ........................................................................................................ ii
Daftar Isi ................................................................................................................... iv
Daftar Tabel ............................................................................................................ vii
Daftar Gambar ........................................................................................................ ix
Daftar Lampiran ...................................................................................................... xi

BAB I PENDAHULUAN

1.1 Latar Belakang ................................................................................................. 1
1.2 Identifikasi Masalah ....................................................................................... 4
1.3 Pembatasan Masalah ...................................................................................... 5
1.4 Rumusan Masalah ......................................................................................... 5
1.5 Tujuan Penelitian ........................................................................................... 6
1.6 Manfaat Penelitian ....................................................................................... 6

BAB II KAJIAN TEORI

2.1 Kerangka Teoritis .......................................................................................... 7
  2.1.1 Pengertian Pendekatan Saintifik .......................................................... 7
  2.1.2 Karakteristik Pembelajaran Saintifik .................................................... 8
  2.1.3 Prinsip-prinsip Pembelajaran dengan Pendekatan Saintifik ............. 10
  2.1.4 Langkah-langkah Pembelajaran dengan Pendekatan Saintifik ........ 11
  2.1.5 Pengertian Belajar .................................................................................. 24
2.1.6 Pengertian Motivasi ............................................................... 25
2.1.7 Fungsi Motivasi dalam Belajar ............................................... 26
2.1.8 Ciri-ciri Motivasi ..................................................................... 28
2.1.9 Jenis-jenis Motivasi ................................................................. 30
2.1.10 Bentuk-bentuk Motivasi di Sekolah ......................................... 31
2.1.11 Unsur-unsur yang Mempengaruhi Motivasi Belajar .................... 34
2.1.12 Upaya Meningkatkan Motivasi Belajar ....................................... 35
2.1.13 Pengertian Pembelajaran Matematika ....................................... 36
2.1.14 Materi Penjumlahan dan Pengurangan Pecahan ............................ 37
2.2 Kerangka Berfikir ....................................................................... 43
2.3 Hipotesis Tindakan ..................................................................... 45

BAB III METODE PENELITIAN

3.1 Jenis Penelitian ........................................................................... 46
3.2 Lokasi dan Waktu Penelitian ........................................................ 46
3.3 Subjek dan Objek Penelitian .......................................................... 46
3.4 Pengertian Variabel Penelitian ......................................................... 47
3.5 Desain Penelitian ....................................................................... 47
3.6 Alat Pengumpul Data ................................................................... 53
3.7 Analisis Data .............................................................................. 53
3.8 Jadwal Penelitian ....................................................................... 56
BAB IV HASIL PENELITIAN DAN PEMBAHASAN

4.1 Hasil Penelitian ........................................................................................................... 57
4.1.1 Deskripsi Lokasi Penelitian .................................................................................. 57
4.1.2 Deskripsi Kondisi Awal ....................................................................................... 58
4.1.3 Deskripsi Siklus I Pertemuan I ............................................................................. 61
4.1.4 Deskripsi Siklus I Pertemuan II ........................................................................... 72
4.1.5 Deskripsi Siklus II Pertemuan I .......................................................................... 79
4.1.6 Deskripsi Siklus II Pertemuan II .......................................................................... 86
4.2 Pembahasan Penelitian ............................................................................................ 95

BAB V KESIMPULAN DAN SARAN

5.1 Kesimpulan .............................................................................................................. 100
5.2 Saran ......................................................................................................................... 102

Daftar Pustaka ............................................................................................................. 103
