

ACKNOWLEDGEMENT

First and foremost, I would like to praise and thank God, the almighty, who has granted countless blessing, knowledge, and opportunity to the writer, so that I have been finally able to accomplish the thesis

Thesis entitled “The Application of CLIS Model (*Children Learning in Science*) to Improve Student Learning Outcome and Learning Activity in Biology for XI Science Student SMA Negeri 1 Tebing Tinggi Academic Year 2011/2012” arranged to obtain SI degree of Sarjana Pendidikan, Faculty of Mathematics and natural Science, State University of Medan.

The writer hardly knows where to start expressing the gratitude but for sure the gratitude goes to all those who have assisted her in the process of completing this thesis. It would be impossible to list all names but several people deserve her sincere and special thanks.

Therefore, the author would like thank profusely to Dr. rer. nat. Binari Manurung, M.Si as my thesis supervisor for his patience, competence and guidance on this thesis. Prof.Dr. Herbert Sipahutar, MS, M.Sc, Syarifuddin, M.Sc, Ph.D., Dr.Hj. Ely Djulia, M.Pd, as the lecturer team of examiners for their suggestion and constructive criticisms for the revision of this thesis. Dr. Fauziyah Harahap, M.Si, as my academic supervisor who has guided the author during academic program.

Gratefully acknowledges the deepest gratitude to Prof. Dr. Herbert Sipahutar M.Si., M.Sc., coordinator of Bilingual Program, and Mr. Samsuddin for his administrative assistance. Drs. Tri Harsono, M.Si. The head of Biology Department.

Head of Education Tebing Tinggi Drs. H. Pardamean Siregar, M.AP who has given permission for author to do research in SMAN 1 Tebing Tinggi. Principal of SMA Negeri 1 Tebing Tinggi, MHD. Syarif, M.Si., M.Pd. for his kindness to allow author in conducting this research at SMAN 1 Tebing Tinggi.

Fahrin Andriana WN, S.Pd and Maimunah, STP as Biology teacher in SMAN 1 Tebing Tinggi who helped me in conducting the study. Student of Class

XI IA 1 and XI IA 5 who received the presence of the author during research in these classes.

Finally, during writing this thesis, the author had the guidance, assistance and prayer support from the various parties. First I wish to deeply thank my family – and my beloved parents, K. Manurung, SPd and W. Turnip, SKM for their patience, encouragement including their endless love and pray to me and Likewise, thanks very much to my beloved brothers Daniel Manurung and Andreas Holywin Manurung for their support and pray to me.

All my friends especially for Desriana Marpaung, Sukmawati Sundari Siregar, Wenny Tarigan, and My special friend Dedy Napitupulu. My sister in Pondok Putri Yuli Fitriani Sinaga, Yana, Lenny Puspita Ginting, Winda Ginting. My best friends in senior high school Nelly, Novida , Melinda , Heri Purba, Rizky Wijaya. For their motivation, kindness and encouragement to author.

Last but not the least, all sisters, brothers and friends in Biology Bilingual 0'8, Biology Department and UKMKP, State University of Medan for their support in Many Things whose name cannot be mentioned one by one in here.

God bless us.

Medan, August, 2012

The Writer

Keasy Rismauly Manurung
