

## ACKNOWLEDGEMENT

First and foremost, the greatest thanks to the Almighty God for His grace and merciful help that have been given to the writer to finish this thesis completely.

The thesis with title; Feasibility Test of Computer Based Learning Media (Virtual Lab) on Teaching Solubility and Solubility Product; was arranged as the requirement to get the Sarjana Pendidikan Kimia in Faculty of Mathematic and Natural Science in State University of Medan.

In this opportunity, I would like to give my gratitude to Prof. Dr. Albinus Silalahi, M.S as my supervisor that gives so many suggestion and advice to prepare this thesis. I am also gratitude to Prof. Dr. Suharta, M.Si, Dr.Zainuddin Muhtar, M.Si, Drs. Rahmat Nauli, M.Si as a examiner and Dr. Retno Dwi Suyanti, M.Si, as the validator of research instrument and media for the advice, comment, correction and suggestion for completed my thesis well, Then, I would like to say thanks to Prof. Drs. Motlan, M.Sc, Ph.D as a Dean of Faculty of Mathematic and Natural Sciences, Prof. Dr. Herbert Sipahutar, M.S., M.Sc as Coordinator of Bilingual Program, Drs. Jamalum Purba, M.Si as the Head of Chemistry Department and my academic advisor, Dra. Ani Sutiani, M.Si as a Head of Chemistry Education Program, all lecturer and staff of Chemistry Department. My gratitude also given to Drs. Bintoni Simatupang as Headmaster of Senior High School Methodist 1 Medan and all teachers and staff who help the writer in doing this research.

My special gratitude for my beloved parents, A.Simangunsong and S. Pasaribu, S.Pd, My beloved brothers and sisters Abednego Simangunsong and Andreas Simangunsong, Siska Pasaribu and all Pasaribu members, Pak Tua Linggom, Uncle Nahan, Sister Asly Simanjuntak and family, Sitohang's Family, Miguel's Family, Zefanya's Family, Teddy's Family, and the whole family that I can't mention one by one thanks for your prayer, support, help, attention, love,

and kindness so I finish my study and research well. Thanks to my dear, Dedy Pandiangan, your prayer and support always be there in every moment that I need; thank you so much; thanks to all my brothers and sisters in GPI KP, my partner in happy and sorrow, thanks for BPH partner Rocky Situmorang, Wido Simanjuntak, Korman Pasaribu and Cosri Nainggolan. Andy Sitinjak, thanks to introduced me with B'Nesta and thanks for the Flash media, Yuk' Herlin thanks for the SPSS; wonderful program; K'ester, Oni, Moyta, Kesya, Siska, Op Kristin and fam, K' Dina, Kak Wani, K'Lina, Ririn, Sartina, Yuli, Yusni, Sarana, Ervina, Dewi, and whole family in GPI KP. Thanks to all my friends in Chemistry Education Bilingual Program Class 2009 especially Hilda, Vera, Monte, Sanny, thanks for your support, help, kindness, prayer and attention.

I already prepared this thesis with my best, but I still need the critics and suggestion from the reader to make it better. I hope this thesis can be useful and give many contributions for the reader especially in education.
