Finally, she will forever be indebted to her beloved parents **Fauzi Effendi Nasution, S.PdI** and **Surayyah Gawi Aziz** for having given her love, unfaliling support and encouragement during the academic year and the completion of this thesis, her beloved guardian and uncle **Drs. H. M. Sazli Nasution** who always gives her love, support, and guidance, and her lovely uncle **Drs. H. Irsyad Tanjung, M.Si** who gives her support and guidance, too. They are always praying and provide funds for the completion of this thesis, and her lovely sister and brother **Marhamah** and **Muhammad Abduh**, my nieces **Nita Khairina Lubis, M.Pd** and **Aldina Nasroh Azizah, S.Pd** and for all the families who supported me. And also her lovely husband **Rahmad Arief Siregar** who always gives support and keep her on track whenever and whatever problems, she have to overcome.

Last but not least, her heartfelt thanks also go to his fellow students, especially students of Biology Bilingual Program Year 2009 FMIPA UNIMED name may not mention one by one writer as well as all those who helped in the writing of this thesis. And thank my beloved seniors **Aisyah, Tari, Dina, Azmi and Maria** that always answer all her questions in completing this thesis.

The writer has tried as much as possible in completing this thesis. However, the writer recognized there are still many weaknesses in terms of both content and grammar. Contents of this thesis would be useful in enrich science education. It would be difficult to find adequate words to convey how much she owes the people. Lots of love and thank all of you.

May Allah bless us.
