

ABSTRAK

Ika Budi Purnama Saragih, NIM : 7103141058. Pengaruh Model *Problem Based Learning* Terhadap Hasil Belajar Ekonomi Siswa Kelas VIII MTs. Al-Washliyah 42 Sipispis T.P. 2013/2014. Skripsi, Jurusan Pendidikan Ekonomi Program Studi Pendidikan Ekonomi, Fakultas Ekonomi Universitas Negeri Medan 2014.

Permasalahan dalam penelitian ini adalah “Rendahnya hasil belajar siswa dalam mata pelajaran IPS terpadu. Tujuan penelitian ini adalah untuk mengetahui pengaruh model *problem based learning* terhadap hasil belajar ekonomi siswa kelas VIII MTs. Al-Washliyah 42 Sipispis T.P. 2013/2014.

Penelitian ini dilaksanakan di MTs. Al-Washliyah 42 Sipispis Jalan Sudirman No. 83 T.P. 2013/2014. Sampel dalam penelitian ini adalah seluruh siswa kelas VIII yang terdiri dari dua kelas berjumlah masing-masing 21 orang kelas VIII A dan 21 orang kelas VIII B. Teknik yang digunakan dalam pengumpulan data adalah tes hasil belajar.

Berdasarkan hasil analisis data, diperoleh nilai rata-rata pretest siswa kelas eksperimen = 25,238 dengan standar deviasi = 10,895 dan nilai rata-rata posttest siswa setelah menggunakan model *problem based learning* = 74,286 dengan standar deviasi 9,910. Sedangkan nilai rata-rata pretest siswa kelas kontrol = 25,952 dengan standar deviasi = 10,679 dan nilai rata-rata posttest siswa yang menggunakan model pembelajaran konvensional = 67,143 dengan standar deviasi 11,573. Dari analisis data yang diperoleh bahwa data hasil belajar berdistribusi normal ($L_{hitung} < L_{tabel}$) dan homogen ($F_{hitung} < F_{tabel}$). Pengujian hipotesis dalam penelitian ini menggunakan uji t dan diperoleh $t_{hitung} > t_{tabel}$ ($2,15 > 2,021$), yang berarti hipotesis dapat diterima antara variabel X dan Y pada tara signifikan 95% atau $\alpha = 0,05$ dengan $dk = n_1 + n_2 - 2 = 40$.

Berdasarkan hasil penelitian, maka dapat disimpulkan bahwa ada pengaruh yang positif dan signifikan model *problem based learning* terhadap hasil belajar ekonomi siswa kelas VIII MTs Al-Washliyah 42 Sipispis T.P. 2013/2014.

Kata Kunci : Hasil Belajar, *Problem Based Learning*

ABSTRACT

Ika Budi Purnama Saragih, NIM: 7103141058. The Influence of Problem Based Learning Model in Economic Learning Result Student Grade VIII in MTs Al-Washliyah 42 Sipispis Academic Year 2013/2014. Thesis, Majoring Economic Education, Study Program of Economic Education, Economic Faculty, State University of Medan 2014.

The problem of this research is result lowering of learning student. This research has a purpose to obtain the effect of Problem Based Learning Model in Economic Learning Result Student in Mts Al-Washliyah 42 Sipispis Academic Year 2013/2014.

The research executed in MTs Al-Washliyah 42 Sipispis Sudirman Street Number 83 Academic year 2013/2014. This research is experiment research. The population on research is of all student grade VIII which consist of two classes, each class consists of 21 students of class VIII A, and 21 students of class VIII B. The instrument used to measure student learning outcomes in the form 20 multiple-choice test item about.

Based on the result of the data analysis, the mean values obtained of pretest experiment class = 25,238 with the deviation standard = 10,895 and the mean of post-test after used problem based learning model = 74,286 with the deviation standard = 9,910. While the mean of pre test control class = 25,952 with the deviation standard = 10,679 and the mean of post-test after used conventional learning model = 67,143 with the deviation standard = 11,573. From the data analysis get the learning result normal ($L_{hitung} < L_{tabel}$) and homogeneity ($F_{hitung} < F_{tabel}$). The hypothesis test in research used t-test for two tailed test and showed $t_{hitung} > t_{tabel}$ ($2,15 > 2,021$), in the word hypothesis accepted between variable X and Y at significant level 95% or $\alpha = 0,05$ by $dk = n_1 + n_2 - 2 = 40$.

Based on the research, it can be concluded that result of study by using problem based learning has a positive influence and significant effect in Economic Learning Result Student grade VIII in MTs Al-Washliyah 42 Sipispis Academic Year 2013/2014.

Keywords : *Problem Based Learning, Learning Result Student*
