

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the result of the study, the conclusions are drawn as follow:

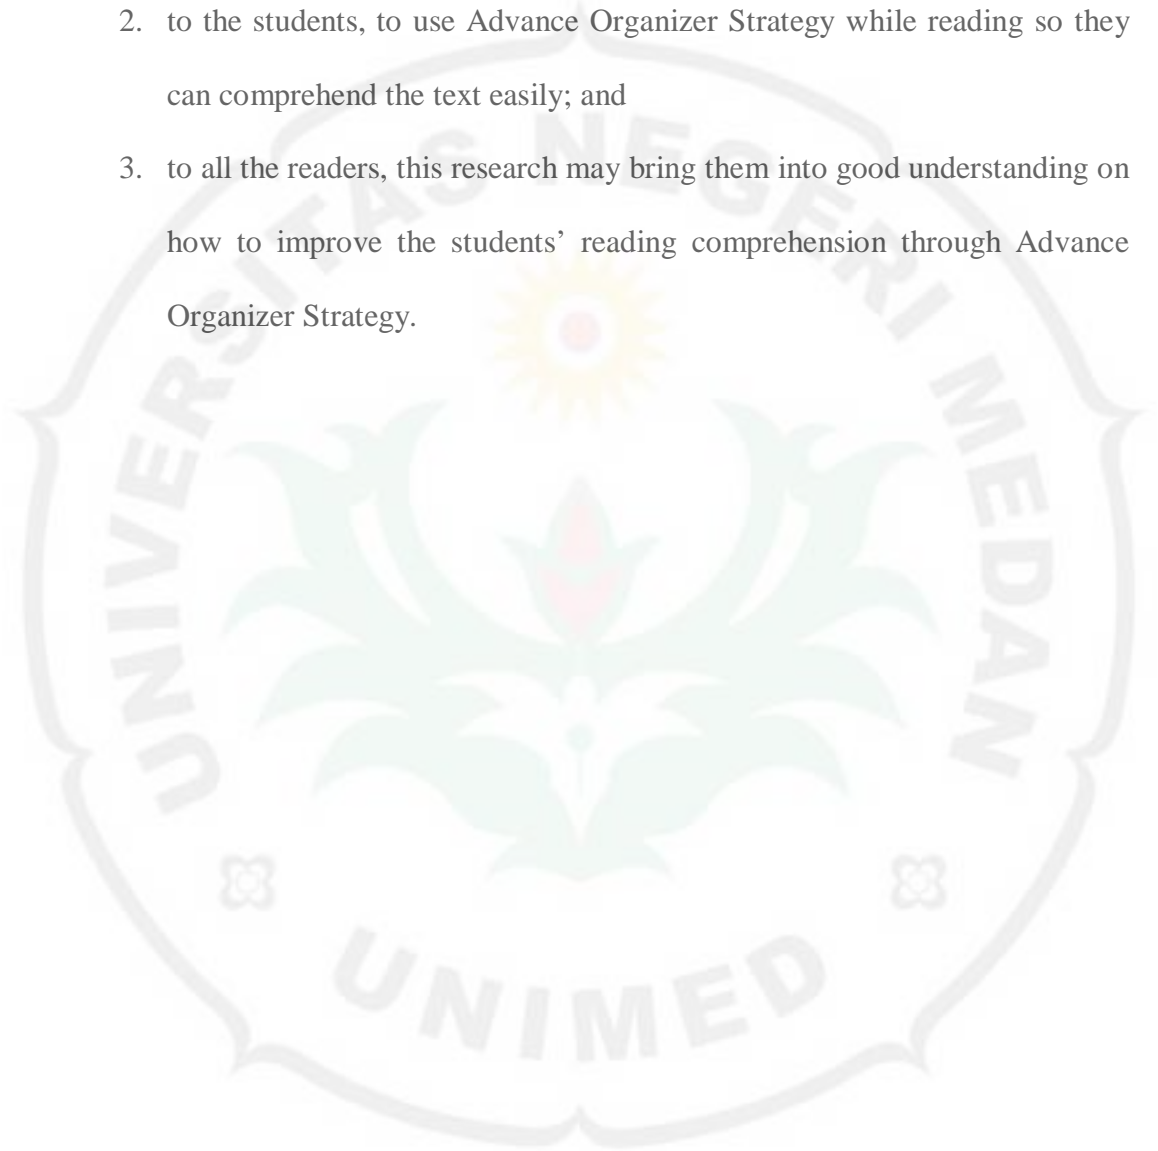

There is an improvement of students' achievement in reading comprehension, especially reading descriptive text if it is taught by using Advance Organizer Strategy. It is showed from the mean of the students' score in three tests: test I (53.13), test II (73.59) and test III (91.5). Besides, the informations of the observation sheet, interview sheet and diary notes indicate that there is improvement in students' achievement in reading descriptive text. It is showed that the most of the students became more active and more active working in groups and it is strengthened by the improvement of their reading test scores. It means that the use of Advance Organizer Strategy could improve the students' achievement in reading comprehension, especially reading descriptive text.

#### B. Suggestions

Based on the result of this study, the use of Advance Organizer Strategy could improve the students' achievement in reading comprehension, especially descriptive text. The following suggestions are offered:

1. to the teachers, to apply Advance Organizer so that they can improve their students' achievement in reading comprehension;

2. to the students, to use Advance Organizer Strategy while reading so they can comprehend the text easily; and
3. to all the readers, this research may bring them into good understanding on how to improve the students' reading comprehension through Advance Organizer Strategy.
