

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

#### A. Conclusion

After carrying out the research and analyzing the data, it is concluded that Extensive Reading Technique significantly improved students' achievement in writing report text especially for the grade XI students of SMA Negeri 14 Medan. They had improved individually after they were taught through Extensive Reading Technique. It was showed from the mean of the students' score had been improved from 49.19 to 77.83. So based on this research we can conclude that this technique of learning could be applied on every subject of lesson, especially in English.

#### B. Suggestions

The result of this study showed that applying Extensive Reading Technique could improve students' writing in report text. Therefore, the following suggestion is offered to:

1. Teachers, to use Extensive Reading Technique to increase the students' score, build their creativity in learning English writing.

2. Headmaster, to socialize this model to other teachers, so they can use it in their teaching learning process to improve the quality of the students and school
3. Senior High School's students, to do more exercises and to increase their vocabularies so they can be easily make report text.
