

## **CHAPTER V CONCLUSION SUGGESSTIONS**

### **A. Conclusion**

After analyzing the quantitative data, the writer found out that the students' test score increased during the cycles. It can be seen from the improvement of the mean in test of cycle 1 (62,6) and the mean in test of cycle 2 (76,2). Moreover, the qualitative data showed that the students were more interested and enjoyable in learning descriptive writing by applying Example Non Example technique. Therefore, it can be concluded that the application of Example Non Example technique can significantly improve students' achievement in writing descriptive text.

### **B. Suggestions**

In line with the conclusions, there are some which are points suggested to:

1. The English teachers, to apply Example Non Example technique so that they can improve their students' achievement in writing descriptive text.
2. The readers, who are interested in dealing with this study, so that they have good understanding about how to improve their ability in writing descriptive text by applying Example Non Example technique.
