

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

After analyzing the types of theme and the multiple theme in Mario teguh's sayings on twitter, conclusions are drawn as follows:

1. The types of theme (marked and unmarked theme) and multiple theme (topical, interpersonal, and textual) can be found in any written text, in this case the data analyzed in the written text especially in sayings shared by Mario Teguh who is a great and well-known motivator in Indonesia.
2. The most dominant types of theme used in those data is unmarked theme since those sayings used mood (declarative, imperative, interrogative) to make them easy to be understood.
3. In multiple theme the most dominant one is topical theme since topical theme prioritizes the simplicity to describes what the point of the saying to be conveyed is.

B. Suggestions

1. It is suggested that understanding and describing theme of each saying in regard of type of theme and multiple theme need a clear understanding of the theory theme and rheme so that the data won't get difficult to be analyzed.
2. It is suggested for other researchers to make a detail analysis of theme and rheme in other types of written text.

3. The findings of this research are advised to be used to fulfill a better understanding for the readers of Mario Teguh's works especially his followers in his account twitter.
4. It is suggested to the readers or students who are concerned to this study to conduct in depth-research to get better understanding in theory and the point of the message.
