

ABSTRACT

Hasibuan, Siti Maisarah. 209520015. Speech Act in Hotel Transylvania Movie. A Thesis. Faculty of Language and Arts, State University of Medan. 2015

The study deals with finding the types and dominant type of speech act used in Hotel Transylvania Movie. The data were taken from the main character in Hotel Transylvania Movie that is Count Dracula. The study was conducted by using descriptive qualitative design. The findings showed that there were 299 utterances which contained 4 types of speech act. Count Dracula tended to use the representative (45,15%), directive (38,13%), expressive (9,70%), and commissive (7,02%). The most dominant type of speech act was representative because he mainly uses the statement of arguing, asserting, informing and describing. It shows that in conversation 'Count Dracula' mostly gave information and statement about human world.
