

CHAPTER V CONCLUSION AND SUGGESTION

A. Conclusion

After collecting and analyzing the data, it can be concluded that:

1. All types of maxims violation were used by the host and the panelists in three selected episodes in *Indonesia Lawak Klub* with the total number 152 utterances. The total number and percentages of each type are violation of maxim of quantity with the total number 56 utterances, violation of maxim of quality with the total number 47 utterances, violation of maxim of relation with the total number 32 utterances and violation of maxim of manner with the total number 17 utterances. The most dominant type that the host and the panelists use is violation of maxim of quantity.
2. The reason why the host and the panelists do that maxims violated in the Comedy Show "*Indonesia Lawak Klub*" is to create humor or joke, entertaining and giving much lesson for audiences with the funny way.

B. Suggestion

By considering the research finding and conclusions, there are some suggestions which are useful for:

1. to everyone who is speaking especially in a formal situation should give complete, clear, true, and orderly information so that there will be no violation in the conversation.

2. for the students of English Department who want to take the pragmatics study as the tool of the research, especially on cooperative principle, they must understand and learn more about this study. They may take different object so that it will make the research more interesting.
3. for the readers should have a good knowledge of the use of maxim to avoid the violation of maxim because not everyone know the violation of maxim.
