Hubungan Kemampuan Berpikir Logis Dan Kemandirian Belajar Siswa Dengan Prestasi Belajar Siswa Kelas XI IPS SMA Katolik 1 Kabanjahe Tahun Pelajaran 2015/2016. Skripsi Jurusan Pendidikan Ekonomi, Program Studi Pendidikan Tataniaga, Fakultas Ekonomi, Universitas Negeri Medan Tahun 2016**

Penelitian ini bertujuan untuk mengetahui adakah hubungan antara kemampuan berpikir logis dan kemandirian belajar siswa dengan prestasi belajar ekonomi siswa kelas XI IPS SMA Katolik 1 Kabanjahe tahun Pelajaran 2015/2016

Tujuan penelitian ini adalah untuk mengetahui. 1. Terdapat hubungan kemampuan berpikir logis dengan prestasi belajar siswa kelas XI IPS SMA Katolik 1 Kabanjahe. 2. Terdapat hubungan kemandirian belajar dengan prestasi belajar siswa kelas XI IPS SMA Katolik 1 Kabanjahe. 3. Ada hubungan dengan kemampuan berpikir logis dan kemandirian dengan prestasi belajar siswa kelas XI IPS SMA Katolik 1 Kabanjahe. Penelitian ini dilaksanakan pada bulan Mei 2016 di SMA Katolik 1 Kabanjahe kelas XI IPS. Populasi dalam penelitian ini adalah sejumlah 135 orang dan sampel sebanyak 68 orang.

Hasil penelitian menunjukkan bahwa dari hasil korelasi antara variabel  $X_1$  dan  $Y$  sebesar 0,773 dan untuk variabel kemampuan berpikir logis diperoleh  $t_{hitung}$  sebesar 8,278 sedangkan  $t_{tabel}$  1,996. Sehingga dapat disimpulkan ada hubungan yang positif antara kemampuan berpikir logis dengan prestasi belajar ekonomi siswa. dari hasil korelasi antara variabel  $X_2$  dan  $Y$  sebesar 0,506 dan untuk kemandirian belajar siswa diperoleh  $t_{hitung}$  sebesar 2,707 sedangkan  $t_{tabel}$  1,996. Sehingga dapat disimpulkan ada hubungan positif kemandirian belajar siswa dengan prestasi belajar ekonomi siswa. Hasil perhitungan korelasi berganda dapat disimpulkan bahwa  $r_{hitung}$  sebesar 0,799 dan dibandingkan dengan  $r_{tabel}$  0,239 maka hal ini menunjukkan bahwa ada hubungan positif antara kemampuan berpikir logis dan kemandirian belajar siswa dengan prestasi belajar ekonomi siswa

**Kata kunci : kemampuan berpikir logis, kemandirian belajar, Prestasi ekonomi**

## **Abstract**

**Duma Rispa Banjar Nahor. Nim 7122141004. Relations Logical Thinking Ability and Independence of Learning Students With Student Achievement Class XI IPS SMA Katolik 1 Kabanjahe in the academic year 2015/2016. Thesis Department of Economics, business administration Education Studies Program, Faculty of Economics, University of Medan Year 2016**

This study aims to determine is there a relationship between the ability to think logically and independent student learning and academic achievement of economic class XI IPS Catholic High School Lesson 1 Kabanjahe year 2015/2016

The purpose of this study was to determine. 1. There is a relationship logical thinking skills and academic achievement of students in class XI IPS 1 Kabanjahe Catholic High School. 2. An association was independent learning with student achievement class XI IPS 1 Kabanjahe Catholic High School. 3. There is a relationship with the ability to think logically and independence with student achievement class XI IPS 1 Kabanjahe Catholic High School. This study was conducted in May 2016 at the Catholic high school 1 Kabanjahe class XI IPS. The population in this study is the number of 135 people and a sample of 68 people.

The results showed that the results of the correlation between variables X1 and Y of 0.773 and logical thinking skills for variable obtained t arithmetic amounted to 8.278 while t table 1.996. So it can be concluded that there is a positive relationship between the ability to think logically with economics student learning achievement. the results of the correlation between X2 and Y of 0.506 and on the independence of student learning obtained t count equal to 2.707 while t table 1.99. So it can be concluded that there is a positive relationship with the students' learning independence economics student learning achievement. The results of multiple correlation calculation can be concluded that r calculated at 0.799 and 0.239 compared with r table it shows that there is a positive relationship between the ability to think logically and independent student learning and academic achievement of students economics

**Keywords:** logical thinking skills, independent learning, economic achievements
