

ACKNOWLEDGMENT

Praise and gratitude of the author pray to God Almighty, for all His love and blessing so that this thesis can be completed well, according to the time planned. The thesis entitled "**The Development Of Practical Guides With Problem Based Learning (PBL) To Improve Student Chemistry Learning Achievement On Acid And Base**", is structured to obtain a Bachelor degree in Chemistry Education, Faculty of Mathematics and Natural Sciences, State University of Medan.

On this occasion the author would like to thank Mrs. **Dra. Ani Sutiani, M.Si.**, as a thesis supervisor who has provided many guidance and suggestions to the author from the beginning of the study until the completion of this thesis writing. Acknowledgments are also conveyed to Mr. **Prof. Drs. Manihar Situmorang, M.Sc, Ph.D.**, Mrs. **Dr. Iis Siti Jahro, M.Si.**, Mr. **Drs. Eddyanto, Ph.D** as a lecturer testers who provide input and suggestions ranging from research plans to completion preparation of this thesis, as well as to Mr. **Prof. Dr. Ramlan Silaban, MS** as an academic supervisor and to all Mr. and Mrs. Lecturer and Staff of Department of Chemistry UNIMED who has helped the author. Great appreciation is also conveyed to the Principal, teachers Mrs. Rosna, S.Pd, Staff Employees and students at SMA Negeri 1 Perbaungan School that has launched the author's research and helped many authors in completing this thesis.

I especially thank the beloved father of **Tua Laurensius Sagala** and my beloved mother **Merlaita Simarmata** who has raised educated, provided support, prayers and funding for the writer to complete her studies at UNIMED to earn her bachelor's degree. And to my brother, brother and sister dear (**Monika Dameria Sagala, Asbol Sagala, Sumiaty Sagala, Erik Sagala, Bonifasius Sagala** and **Yosevin Sagala**) who continue to give the spirit of prayer and support to the author in completing this thesis.

Do not forget also thanks the author to convey to the loved person **Nora Theresia Turnip, S.Pd** who always faithful to help and accompany the author so far, no end to give spirit, motivation, and entertain the author when experiencing burnout.

Thank you to Obi Satria Manik, Primsa Kaban, Alfredi Sembiring, Agum kuntara tambunan, yuberlin Zebua, Maya Natalia Sinabutar as a friend of thesis tutor and also Yunita Khairani, Fathia Hanun as best group friend during practicum and Lenni Puspita Dwi as friend of mobile legend game and all the big family BILCHEM '14 which gives motivation and passion in the preparation of this thesis. Thank you for LASVEGAS FC (Donni Pasaribu, Sonak Kristian Simangunsong, Jupiter simbolon, Alfredo Napitu, Yusuf Turnip, Tomson Sidauruk, Junius, Samuel Sitanggang, Renol Sibarani and Viktor Simanungkalit) who have given input and place of exchanging thoughts in the writing of this thesis. And thanks for the Christian Family Chemistry Association (IKBKK) who cannot afford the authors say one by one, thank you for all togetherness, passion, self-immolation while in it, motivation, always share experiences, laughter during this lecture and have many helpful and equally striving to staple 14 in thesis work.

The author has been working with as much as possible in the completion of this thesis, but the author realizes there are still many weaknesses both in terms of content and grammar, for the authors expect advice and constructive criticism from the reader for the perfection of this thesis. Presumably the content of this thesis can be useful in enriching the science of education.
