

## ACKNOWLEDGEMENTS

First and foremost, praise and thank to be Allah SWT for all blessing, who has granted countless opportunity, strength and knowledge to the writer so that she has been finally able to accomplish her thesis.

Though only my name appears on the cover of this thesis, a great many people have contributed to its production. I owe my gratitude to all those people who have made this thesis possible and because of whom my graduate experience has been one that I will cherish forever.

My deepest gratitude is to my first advisor, Prof. Dr. Busmin Gurning, M.Pd., I have been amazingly fortunate to have an advisor who gave me the freedom to explore on my own, and at the same time the guidance to recover when my steps faltered. He taught me how to question thoughts and express ideas. His patience and support helped me overcome many crisis situations and finish this thesis. I hope that one day I would become as good an advisor to my students as he has been to me.

My second advisor, Dr. Didik Santoso, M.Pd., has been always there to listen and give advice. I am deeply grateful to him for the long discussions that helped me sort out the technical details of my work. I am also thankful to him for encouraging the use of correct grammar and consistent notation in my writings and for carefully reading and commenting on countless revisions of this manuscript.

She would like to give her special thanks to her reviewers and examiners Prof. Dr. Sri Minda Murni, M.S., Dr. Anni Holila Pulungan, M.Hum., and Dr. Siti Aisyah Ginting, M.Pd., for their valuable suggestions, corrections and inputs for completing of this thesis. She also wishes to express thanks to all lecturers who have given her the valuable knowledge and science during her study at the English Applied Linguistic Study Program of Postgraduate School, State University of Medan.

In particular, special thanks is extended to the headmaster of SMP Nurul Islam Indonesia Baru who permits her to conduct the research in the school. Thanks to the teacher of SMP Nurul Islam Indonesia who helps her in conducting the treatment in the school. And those teachers and students of SMP Nurul Islam Indonesia Baru who gave supports to this study and for their cooperative attitude and work during the research.

Many friends have helped me stay sane through these difficult years. Their support and care helped me overcome setbacks and stay focused on my graduate study. I greatly value their friendship and I deeply appreciate their belief in me.

Most importantly, none of this would have been possible without the love and patience of my family. My immediate family to whom this thesis is dedicated to, has been a constant source of love, concern, support and strength all these years. I would like to express my heart-felt gratitude to my family. My extended family has aided and encouraged me throughout this endeavor. I have to give a special mention for the support given by parents (Ratmo Miarjo and Ngadimi), sisters (Sumiati, Suyanti, Sunarti), brother (Sukanto, S.Km., M.Kes.), and beloved (M. Ali Subhan Harahap, Amd.). I warmly appreciate the generosity and understanding of my extended family.

Finally, the researcher admit that this thesis is still far from being perfect so any constructive ideas and critics to improve this thesis are warmly welcomed. She hopes this thesis will always be beneficial for the readers.
