

## PREFACE

Alhamdulillah, praise and gratitude to Almighty God, Allah SWT for His blessings and mercy that provide health and wisdom to finish this thesis with the title “ The Difference of Mathematical Representation Ability by Using Instruction of Problem Based Learning and Direct Instruction in Grade X.

I want to express special thanks to my beloved family, my father, Aspan Effendi, my mother, Siti Elfina, and my blood sister, Siska Amelia and Fatia Aulia, for their everlasting support, patience, love, and their prayer throughout this process. I dedicate this thesis for them. My warm thanks go to my Big Family, for their support prayer love and care.

Special thanks are extended to my supervisor, Mr. Prof. Dr. Mukhtar, M.Pd. for his time, patience, a lot of advice, constructive criticism, questioning and probing, and constant encouragement that were deeply appreciated and valued. I also extend special thanks to Mr. Prof. Dr. Edi Syahputra, Mrs. Dra. Katrina Samosir, M.Pd., and Mr. Denny Haris, S.Si., M.Pd. as my examiners who gave me insightful suggestions from compiling proposal till this thesis compilation was done. And also for my academic counselor, Mr. H. Banjarnahor, M.Pd., I want to express my special thanks for his guidance and suggestion during the lecture period.

I would like to thank Mr. Prof. Dr. Ibnu Hajar, M.Si. as the Rector of Medan State University as well as the staff employees in rector's office, Mr. Prof. Dr. Motlan, M.Sc., Ph.D. as the dean of Mathematics and Sciences Faculty, Mr. Prof. Dr. rer.nat. Binari M., M.Si. as the coordinator of bilingual class, Mr. Dr. Edi Surya., as the chief of Mathematics Department, Mr. Zul Amry, Ph.D as the chief of Study Program of Mathematics Department, Mr. Drs. Yasifati Hia, M.Si., and all of staff employees in Mathematics Department of Mathematics and Sciences Faculty that were involved in this thesis compilation.

I also express my deep gratitude to the principal of SMA Swasta Panca Budi Medan, mathematics teacher, Mrs. Ilma S.Pd, and all of teachers in SMA Swasta Panca Budi Medan, that gave me permit to conduct the research, helped

me from the beginning till the research done, and gave me support throughout this process. I also want to thank all of students in class MS-1 and MS-A for their collaboration, support, and passion when I was teaching them.

I would like to thank my best friends, Abdul, Anggi, Dian, Dwi, Erllyn, Elfan, Kiki, Falni, Mila, Lia, Meiva, Martyanne, Melin, Surya, Nelly, Petra, Riny, Rully, Sartika, Sheila, Siti, Uli, and Mimi, and also especially for my hometown best friends Eri Syahputra, Taufik Ismail, M. Yogie A.Md, friends of best keles Risva, Mora ,friends of PPLT in Kisaran, and all my friends i did not mention for their support and love throughout this process. It would not have been possible without each of you.

I have done the best for finishing this thesis, but I realize that this thesis has its shortcomings either in contents, grammar, or technical writing. Hence, I hope the constructive criticism and suggestion from the reader for the perfection of this thesis. I hope this thesis could be useful for further researchers and useful in enrichment the knowledge.
