

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusions

Based on the findings of the research, it can be concluded that:

1. There are five types of speech acts namely; declarations 24 (3,87%), representative 443 (71,45%), expressive 44 (7,11%), directives 85 (13,70%) and commissive 24 (3,87%) are applied in Forrest Gump's utterances.
2. The representative type is the most dominant uttered by main character Forrest Gump in Forrest Gump. It is 443 (71,45%)
3. From the previous analysis, it can be seen that representatives generally used by Forrest Gump who has a mental retardation in Forrest Gump Movie. It shows that mental retardation disorder wants to represent a world as they believe to share to listener. They always convey what they know about a fact despite on listener does not like what they uttered. It also shows that mental retardation does not see what listener understand about speaker's belief. For them, especially mental retardation disorder, they just utter what they know or believe without see their around.

B. Suggestion

In relation to the conclusion above, some suggestions are given as bellow:

1. It is suggested that the people who wants to learn about speech act especially for reader this thesis know how important speech act is used in communication especially to avoid the misunderstanding communication.
2. For other researcher, this research could be one reference in studying about speech act. Especially for researcher wants to relate this study with another knowledge.
3. For society, this research will give any information about main character in Forrest Gump movie. It can help the society how the language is used by main character in general communication.
