

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

The materials in the textbook (English on Sky) which is used in grade seven of SMP Negeri 27 Medan focus more on listening and reading. The speaking materials are not enough for classroom use. Therefore the objective of the study was to develop the speaking material in transactional, interpersonal and short functional text based on task-based learning. The seventh grade students of SMP Negeri 27 Medan needed speaking materials which could support their learning activity.

The English speaking material should be developed through 6 phases, they were; 1) Need Analysis, 2) Planning (designing the syllabus), 3) Designing the first draft of the material, 4) Expert judgment, 5) Designing final draft of the material.

Based on the result of the expert judgment, these developed speaking materials are appropriate for the seventh grade students of Junior High School.

B. Suggestion

Based on the conclusion above, the writer suggested the English teachers, students and other researchers.

For the English teachers, they should analyze the target and learning needs of students to choose the most appropriate and best materials for the students. The appropriate materials make the students interested to achieve the goal of learning.

The learning process can be successful if the reading materials were useful for the students' daily life.

For the students, they can use the developed speaking material for practice in developing their speaking ability.

For other researchers, they can develop the speaking materials based on task-based learning for other grades of students so that teacher will have more speaking materials ready for the students. Other researcher should find many references to support in developing speaking materials.
