

CHAPTER V

CONCLUSION AND SUGGESTION

A. CONCLUSION

According to the aim of the research, it can be stated that the conclusion of the research is :

1. There's a significant effect of Leg Muscle Power toward the accuracy of Shooting at Perfect Unimed Soccer School.
2. There's a significant effect of Eye-foot Coordination toward the Accuracy of Shooting at Perfect Unimed Soccer School.
3. There's a significant effect of Le Muscle Power and Eye-foot Coordination toward the Accuracy of Shooting.

B. SUGGESTION

According to the conclusion above, hance raised some suggestions below, namely :

1. Suggested to another researcher can be used as a reference to complete the research about the effect of leg muscle power and eye-foot coordination.
2. Suggested to Perfect Unimed Soccer School, this research expected to be useful, so that it can be used as part of a varied for shooting practice.
3. For the player, this research expected to increase ability of shooting. Therefore, when doing shooting training the accuracy will be better.
