

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

Based on the findings and discussion, the conclusions are drawn as the followings:

1. The LD score in reading texts of grade VIII junior high school textbook consecutively are text 1 (54.19), text 2 (53.2), text 3 (57.67), text 4 (57.81), text 5 (53.75), text 6 (44.39) and text 7 (66.15). The average score of LD in reading texts of grade VIII junior high school textbook is 55.31% in which text 7 has the highest percentage of LD and the lowest one is text 6.
2. The GI score index in reading texts of grade VIII junior high school textbook successively are text 1 (2.1), text 2 (2.43), text 3 (2.29), text 4 (2.5), text 5 (2.43), text 6 (2.5) and text 7 (2). The average score of GI is 2.32 in which both text 4 and 6 have the highest index of GI and the lowest one is text 7.

#### B. Suggestions

In accordance to the conclusion, the suggestions are proposed as the followings:

1. English teacher should selectively choose the textbook to be used as since it is one of the important things influencing the successfulness of teaching-learning process.

2. Book writer should be aware about the complexity of the text because the more complex a textbook is, the harder it is understood.
3. Further research, there is a need to extend the scope of research such as cohesion, and lexical variation in reading texts in English junior high school textbook or senior high school textbook.
