

ACKNOWLEDGMENT

Bismillahirrahmanirrahim, Alhamdulillahirabbal A'lamín Praise and thanksgiving authors say to Allah Subhāna Wa Ta'ala, for all his blessings and graces, then this thesis can be solved well. The thesis entitled "**The Development of Student Worksheet Based Android on Acid-Base Materials**", was compiled to obtain a Bachelor degree in Chemistry Education, Faculty of Mathematics and Natural Sciences, State University of Medan.

On this occasion the authors are grateful to the Rector of the State University of Medan namely Mr. Prof. Dr. Syawal Gultom, M.Pd., to the Dean of FMIPA, Mrs. Dr. Martina Restuati, M.Si., to the Chairman of Chemical Department, Mr. Agus Kembaren, M.Si., and to the Bilingual Coordinator and thesis examiner who is Mrs. Iis Siti Jahro, M.Si. which has provided an opportunity for writers to pursue education, completion, and obtain a bachelor's degree at Medan State University. Thanks are also extended to Mr. Dr. Zainuddin Muchtar, M. Si, as a thesis supervisor who has provided many guidance and suggestions to the author from the beginning until the completion of this thesis writing. Thank you to Mr. Prof. Dr. Ramlan Silaban, M.S., and Mrs. Nora Susanti, S.Si, Apt. M.Sc., which has provided many inputs, criticisms and constructive suggestions ranging from research plan to completion of this thesis. Thanks are also given to Prof. Drs. Manihar Situmong, M.Sc, Ph.D as academic supervisor and to all Mr. and Mrs. Lecturer and Staff of Department of Chemistry, Bilingual Chemistry Education Study Program FMIPA UNIMED which has helped many authors in completing this thesis. Thanks also to the Principal, Vice Principal, Staff Administration, Chemistry Teacher and Students in SMA Negeri 1 Perbaungan who have helped me during the study process.

In particular, I would like to thank my parents, Mr. Zarkasi, BA and Mrs. Fauziah Lubis who have struggled to educate and support so that the writers can complete and obtain a Bachelor's degree. A big thank you to all the great families who have given us great support and encouragement.

Thanks to Gunawan Bakti, S.Ag., who never stopped to always remind and motivate the buildup spirit to immediately complete the thesis. Thanks are also due to Nurwana as the best friend who always gives me motivation and suggestions useful. To Ayu Kartika, Devi Rianti Sari, Vicky Amalia and Nurfazri Pulungan thanks for being friends, best friends, and family as long as the author is studying at Medan State University. Thanks also to my friends Bilingual Chemistry Education 2014, as well as all friends of Chemistry Department students who have given spirit, lesson, friendship, and space to the writer to be able to grow and become a better person.

The author has done the best possible in the completion of this thesis, but the authors realize there are still many weaknesses in terms of content and grammar, for the authors expect advice and constructive criticism from readers for the perfection of this thesis. Presumably the contents of my thesis can be useful and can enrich the Science of Education Sciences.
