

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter presents the conclusions and suggestions of the research. The conclusion is concluding of this research and the suggestions contain from the researcher to English teachers and future researcher.

CONCLUSION

This research aimed to develop writing material using EGRA technique for tenth grade students of SMAN 6 Medan, in conducting this research the objective of the study is to develop the English writing materials students needs based on EGRA techniques for the tenth grade students at SMA NEGERI 6 MEDAN.

The researcher concluded the relevant writing material in descriptive text students of SMA NEGERI 6 MEDAN there were there unit, (1) descriptive text about person, (2) descriptive text about place and (3) descriptive text about building.

The writing material in descriptive text was designed based on the need analysis. In addition the researcher used Researcher and Development steps proposed by Brog and Gall (2003). (1)Gathering information, (2)Analyzing data, (3)Designing new writing material using EGRA, (4)Evaluating or validating new teaching technique by experts, (5)Revising, (6)Final Product. The average score of material assessment were 3.17 from English lecture 3,26 from English teacher, which is it

means is it that developed writing material were categorize appropriate for students .

SUGGESTION

In line with the conclusion above, some suggestion are recommendations as follow:

1. English teacher

For the English teacher, this module can be implemented in the classroom to teach writing since this module provides activities that given many chances for students to learn how to make good sentence. For the pre-activity, the teachers are recommended to add games that deal with the topic if the first activity of this module is reading text. Besides, the teachers are recommendation use videos that deal with the topic taught to draw students' attention in learning.

2. Students

The students should practice their writing skill by using EGRA technique material because has interesting text, enough exercise, so, the students can increase their writing skill

3. Future researchers

For the future researchers, this module can be a guideline to make a better module in teaching writing for tenth grade students. The important aspect before making the module is that the future researchers have to know and understand the students need and characteristics so that it can be useful for the student after the

design material made. Besides, the future researchers are recommendation to use research and development method (R&D).
