

LIST OF FIGURES

	<i>Pages</i>
Figure 2.1. Epidermis Tissue and its Modification	18
Figure 2.2. Parenchyma Cells in a Privet (<i>Lingustrum</i>) Leaf	19
Figure 2.3. Colenchyma Cells in <i>Helianthus</i> Stem	20
Figure 2.4. (a) Sclereid Cells; (b) Tracheids Cells	20
Figure 2.5. Phloem	21
Figure 2.6. Xylem	21
Figure 2.7. Leaf Anatomy	22
Figure 2.8. Plant Stem and Its Parts Morphologically	23
Figure 2.9. Cross Section of Stem with Vascular Bundles in (a) Dicots, (b) Monocots	24
Figure 2.10. (a) Anatomy of Young Dicotyl Root, (b) Anatomy of Young Monocotyl Root	26
Figure 2.11. Parts of Flower	27
Figure 2.12. Differences of Monocot and Dicot Plants	28
Figure 2.13. Tissue Culture System	29
Figure 4.1. Students' Higher Order Thinking Skills on Plant Tissue Topic	44
Figure 4.2. Students' Critical Thinking Skills on Plant Tissue Topic	46
