

## ACKNOWLEDGEMENT

Praise gratitude Alhamdulillah the author spanned the demand of Allah SWT that has defated the grace, taufiq and his hidayah, so the author can complete this thesis with the title is “ The Development Learning Media Based Ispring Presenter to Increase Student Learning Achievement on Salt Hydrolysis Materials “. That arranged to obtain the degree of Sarjana Pendidikan in Chemistry Department, faculty of Mathematics and Natural Science, State University of Medan (UNIMED).

In this oppurtunity, I would to express his gratitude to Dr.Ajat Sudrajat,M.Si. as my thesis supervisor who has provided guidace, advices, motivation, and suggestion during the proces of completing this thesis. I also give thanks to Dr. Iis Siti Jahro, M.Si., Dr. Marham Sitorus, M.Si., and Moondra Zubir, Ph.D an evaluator commite who has provided suggestion from the plan until the completion of this thesis. The gratitude also goes to Dr. Martina Restuati, M.Si. the gean of Mathematics and Natural Science Faculty, State University of Medan, and Dr. Iis Siti Jahro,M.Si as a Coordinator Bilingual Programme, their advices and other necessary administrative.

I also give thanks to Dr. Zainuddin Muchtar, M.Si as the Academis Supervisor who always guide research during lecturer, great thanks Prof. Dr. Retno Dwi Suyanti, M.Si as validator of instrument test and learning media in this research, and the entire along with Mr and Mrs Staff and Lecturer in Chemistry department FMIPA UNIMED who helped the author. The author also presented to School Principal of SMA Cerdas Murni, Ibrahim Arbi, S.Ag, S.Pd.I that give permission and Erlina, S.Pd as the chemistry teacher in SMA Cerdas Murni. Special gratitude and appreciation to the y lovely father Ahmad Hamdani Batubara and my mother Siti Marhimah and also to my dearest sister Rosa Mardiyah Batubara with husband Wahyu Utama Putra for their love supports, pray, motivation and caring that they give. As well as thanks to my brother Rifqi Arif Batubara with wife Zulvia Misykah and Royhan Ry Anwar and also my siblings Risna Aulina Batubara and Rizal Ry Fahmi Batubara. The authors also

express thank to all friends in Bilingual Chemistry Education 2015 namely Citra, Enny, Deminar, Lusi, Sabet, Ellya, Yosi, Indri, Santun, Habib, Jecky, Debby, Riska, Eli, Esi, Dwi, and Christian always together (sad, happy, pray together, laugh together and help each other and love each other the most important is always there) love this class is the best, thanks to friends of one the rights of thesis Dinda, Desi, Murni and Hanifah for giving motivation, togetherness, spirit and pray. I also would like to say thank you to all whose names cannot be mentioned one by one for their support and friendship through my academic year.

The authors tried for maximal effort in the completion of this thesis. Authors hope the critique and suggestion from readers for completeness the thesis perfectly. Finally, the writer hopes this thesis can be useful to enrich the reader in science education and for further improvement of this thesis.

Medan, June 2019
