

ACKNOWLEDGEMENT

Praise and gratitude must be prayed to Almighty God for all the gracious and merciful that provide health and wisdom to the writer so can finish this thesis well. The thesis entitled “Implementation of Website Based Learning Media Used a Scramble Type Cooperative Learning Model To Increase Students' Achievement on Redox Reaction. This research was conducted in SMA N 1 Tebing Tinggi in academic year 2019/2020”, was compiled to obtain a Bachelor degree in Chemistry Education, Faculty of Mathematics and Natural Sciences, State University of Medan.

On this occasion the author was grateful to the Rector of the State University of Medan namely Mr. Prof. Dr. Syawal Gultom, M.Pd., to the Dean of FMIPA, Mrs. Dr. Martina Restuati, M.Si., to the chairman of Chemical Department is Dr. Ayi Darmana, M.Si and to the Bilingual Coordinator Mrs. Iis Siti Jahro, M.Si., and thanks to Mrs. Nora Susanti, S.Si, M.Sc., Apt., which has provided an opportunity for author to pursue education, completion, and obtain a bachelor's degree at Medan State University. Thanks are also extended to Mr. Drs. Eddiyanto, Ph.D., as my thesis supervisor who has provided many guidance and suggestions to the author from the beginning until the completion of this thesis writing. Thank you to Mr. Prof. Dr. Ramlam Silaban, M.Si., Mrs. Nora Susanti, S.Si, M.Sc., Apt., and Mrs. Rini Selly, S.Pd., M.Sc., which has provided many inputs, criticisms, and constructive suggestions ranging from research plan to completion of this thesis. Thanks are also given to Mrs. Prof. Dr. Retno Dwi Suyanti, M.Si as my academic supervisor and as the validator of the website media and thanks to Mrs. Dra. Ani Sutiani, M.Si as my validator on instruments test. Thanks are also extended to all Mr. and Mrs. Lecture and Staff of Department of Chemistry, Bilingual Chemistry Education Study Program FMIPA UNIMED which has helped many author in completing this thesis. Thanks also to the principal, Staff Administration, Chemistry Teacher and students in SMA N 1 Tebing Tinggi who have helped me during the study process.

Specially author thanks so much to my beloved parents that always become my power, support, inspiration, suggestion, and motivation that given love with

all of their heart and soul, strong and stiff to pass the life, they acquiese in giving the happiness for author and always pray writer all time. They are my father Puner Tumanggor and my beloved mother Rosani silalahi who have struggled to educate and support so that the author can complete and obtain a Bachelor's degree. A big thanks to all my lovely sister, they are kak Judika, kak Priscilla, and kak Dio. Thaks also extended to all the great families who have given us great support and encouragement.

Thanks to all my lovely friends on Bilingual Chemistry Education 2015 especially for the Kece Comting (Habib Hernando), thank you for all your support and love in this four years may God bless us every time in anywhere and author say thank you so much to my partner in this thesis is Wulan Dwi Safitri. Author thanks to my beloved Adriella Small Group (Lusi, Yosi, Indri, kak Nina, kak Yo) for your love and support, PANAT UP-MIPA 2017, TSD, and Abigael Manuella Small Group (Rebeca, Kristy, Rahel, Srikanti). Thanks for all your pray Koordinasi UKMKP UP-MIPA 2019, IKBKK Choir.

The special thanks to my sweetest Kos Durung 165 squad (delima, jelita, netty, rauli) for all this time we spend together the happinest, the bad day Author always praises the Lord who given you for me. The last, thanks also extended to my lovely person who never felt bored to support and praying me in all situation. Thank you being patient in dealing with my strong and weaknesses even your name was not mentioned but it was reminded in every prayer.

The author has done the best possible in the completion of this thesis but the author realized there was still many weakness in term of content and grammar, for the author expect advaice and constructive criticisms from readers for the perfection of this thesis. presumaly the contents of this thesis can be useful and can enrich the Science of Education.

Medan, Juni 2019
