

CHAPTER V CONCLUSION AND RECOMMENDATION

5.1 Conclusion

Based on the two Biology textbooks analysis about the completeness, breadth and depth aspect, can be concluded that:

1. The Completeness aspect of the two textbooks have different level, Erlangga textbook has very good status, while Grafindo textbook has good status.
2. The Breadth aspect of the two textbook, Erlangga has very good status and Grafindo has good status
3. The Depth aspect of two textbook, Erlangga publisher has very good status and Grafindo has good status.

5.2 Recommendation

Based on the two Biology textbook analysis can be given recommendation :

1. To obtain the best quality of textbook and related to curriculum is better to be done the best selection by using analysis, namely analysis for the completeness, breadth and depth aspect.
2. For the using textbook is better reflects the object of textbook priority based on the feasibility aspect of textbook that related to the curriculum, so the teacher and student are easier to do learning process.
3. Based on the two textbooks analysis is hopefully become the basic to the next researcher to do research for another textbook's publisher.
