**Caterine Maharani, Nim 7162143007. Pengaruh Tingkat Pendidikan Orang Tua Dan Fasilitas Belajar Di Rumah Terhadap Prestasi Belajar Siswa Kelas X SMK Swasta Jambi Medan T.a 2019/2020**

Permasalahan dalam penelitian ini “rendahnya prestasi belajar siswa” kelas X BDP, OTKP 1, OTKP 2 siswa kelas X SMK Swasta Jambi Medan. Penelitian ini bertujuan untuk mengetahui ada tidaknya pengaruh tingkat pendidikan orang tua dan fasilitas belajar di rumah terhadap prestasi belajar siswa kelas X BDP, OTKP 1, OTKP 2 SMK Swasta Jambi Medan. Penelitian ini dilakukan di SMK Swasta Jambi Medan dengan populasi sebanyak 97 orang siswa dan sampel berjumlah 97 orang siswa yang diambil secara keseluruhan. Instrument pengumpulan data yang digunakan adalah daftar nilai raport siswa serta angket tingkat pendidikan orang tua dan fasilitas belajar di rumah dalam bentuk skala likert sebanyak masing-masing 25 item soal. Hasil analisis data menggunakan regresi linear berganda dan uji hipotesis dan disimpulkan bahwa tingkat pendidikan orang tua dan fasilitas belajar di rumah berpengaruh terhadap prestasi belajar siswa. Hal ini dilihat dari hasil analisis regresi linear berganda diperoleh persamaan  $7,810 + 494 X_1 + 408 X_2 + e$ . Selanjutnya dilihat dari nilai signifikan antara tingkat pendidikan orang tua terhadap prestasi belajar siswa yang ditunjukkan dengan nilai  $t_{hitung} > t_{tabel}$  dimana  $4,776 > 1,985$  dengan nilai signifikan  $0,000 < 0,05$ . Begitu juga nilai signifikan antara fasilitas belajar di rumah terhadap prestasi belajar siswa dimana nilai  $t_{hitung} > t_{tabel}$  dimana  $4,534 > 1,985$  dengan nilai signifikan  $0,000 < 0,05$ . Secara simultan (uji f) ditunjukkan dengan nilai  $F_{hitung} > F_{tabel}$   $49,099 > 2,36$  dan nilai signifikan  $0,00 < 0,05$ . Sehingga dapat dikatakan bahwa hipotesis diterima. Dengan demikian dapat disimpulkan bahwa terdapat pengaruh yang positif dan signifikan tingkat pendidikan orang tua dan fasilitas belajar di rumah terhadap prestasi belajar siswa kelas X BDP, OTKP 1, OTKP 2 siswa kelas X SMK Swasta Jambi Medan.

**Kata Kunci : Tingkat Pendidikan Orang Tua, Fasilitas Belajar Di Rumah, Prestasi Belajar Siswa**

## ABSTRACT

### **Caterine Maharani, Nim 7162143007. The Influence of Parents' Education Levels and Learning Facilities at Home Against the Learning Achievement of Class X Students in Jambi Medan T.a Private Vocational School 2019/2020**

The problem in this study is "low student achievement" class X BDP, OTKP 1, OTKP 2 grade X students of the Jambi Private Vocational School Medan. This study aims to study the presence or absence of parental education level and at home learning facilities on the learning achievement of students of class X BDP, OTKP 1, OTKP 2 SMK Medan Private Medan.

This research was conducted at Jambi Private Vocational School Medan with 97 participants and a sample of 97 students taken as a whole. The data collection instrument used was a list of student report cards and parents' level of education questionnaires and learning facilities at home in the form of a Likert scale with 25 items each. The results of data analysis using multiple linear regression and hypothesis testing and concluded the level of education of parents and learning facilities at home are related to student achievement. This can be seen from the results of multiple linear regression analysis obtained from  $7,810 + 494 X_1 + 408 X_2 + e$ . Furthermore, it is seen from the significant value between parents' education on student achievement which is assessed by  $t_{count} > t_{table}$  where  $4,776 > 1,985$  with a significant value of  $0,000 < 0,05$ . Likewise, a significant value between learning facilities at home on student achievement where the value of  $t > 4,534 > 1,985$  with a significant value of  $0,000 < 0,05$ . Simultaneously (f test) evaluation with  $F_{count} > F_{table}$   $49,099 > 2,36$  and significant value  $0,00 < 0,05$ . Accepted it can be agreed that the hypothesis is accepted. Thus it can be concluded that there are significant and significant differences in the level of education of parents and learning facilities at home to the learning achievement of students of class X BDP, OTKP 1, OTKP 2 students of class X in SMK Swasta Jambi Medan.
