ABSTRACT

Nelson Sinaga. NIM. 1163171024. The Role of Caragiveers in Managing the Emotions of Children of *Broken Home* Victims at the Indonesian Family Friends Orphanage Percut Sei Tuan. Thesis. Dapartment of Community Education. Faculty of Education. Medan State University 2021.

This research is motivated by the problem of how the emotions of children who are victims of a broken home are and what are the strategies of caregivers in managing the emotions of children who are victims of a broken home at the Friends of the Indonesian Family Orphanage. The purpose of this study is to find out how the emotions of children who are victims of a broken home are and how the role of caregivers in managing the emotions of children who are victims of a broken home is at the Friends of the Indonesian Family Orphanage. The benefits of this research are theoretical and practical benefits. The type of research used is descriptive qualitative. The subjects in this study were 4 caregivers of the Orphanage. Data collection techniques used in this study include observation, interviews, and documentation. Data analysis techniques through data reduction, data presentation, and drawing conclusions/verification. The results showed that the emotions of children who were victims of a broken home still tended to negative emotions, such as being irritable, offended, depressed, sad and fighting. Aspects of controlling emotions, caregivers provide direction to children not to respond to bullies against the background of a broken home child.

Words Key : Broken Home, Managing emotions
