

ABSTRAK

AYU ANDINI, NIM 8196191006. Pengembangan Materi Pembelajaran Teks Cerpen Berbasis Nilai Profetik Menggunakan Media Fotonovela untuk Siswa Kelas XI SMK Kesehatan Hafsyah Medan. Tesis: Pendidikan Bahasa dan Sastra Indonesia. Program Pascasarjana Universitas Negeri Medan. 2021.

Hasil penelitian ini menunjukkan bahwa, pada proses pengembangan meliputi tahap analisis kebutuhan, analisis materi, dan pengembangan produk. Hasil validasi dari ahli materi meliputi, kelayakan isi, kelayakan penyajian dan kelayakan bahasa dinyatakan sangat baik dengan persentase rata-rata keseluruhan sebesar 90%. Kemudian, validasi dari ahli desain media dinyatakan sangat baik dengan persentase rata-rata sebesar 86%. Respon atau tanggapan yang diberikan guru bahasa Indonesia terhadap kualitas materi pembelajaran teks cerpen berbasis nilai profetik menggunakan media fotonovela dinyatakan sangat baik dengan persentase sebesar 95,5%. Selanjutnya, uji coba perorangan dinyatakan baik dengan persentase rata-rata sebesar 84,5%, uji coba kelompok kecil dinyatakan sangat baik dengan persentase rata-rata sebesar 88,5%, dan uji coba lebih luas dinyatakan sangat baik dengan persentase rata-rata sebesar 97,7%. Hasil perolehan rata-rata nilai siswa sebelum mempelajari teks cerpen berbasis nilai profetik menggunakan media fotonovela dinyatakan cukup dengan rata-rata sebesar 64,6%, sedangkan rata-rata perolehan nilai siswa sesudah mempelajari teks cerpen berbasis nilai profetik menggunakan media fotonovela dinyatakan baik dengan persentase rata-rata sebesar 84,5%. Selisih yang diperoleh adalah 20% dari sebelum dan sesudah menggunakan produk yang dikembangkan. Hal ini dapat disimpulkan bahwa materi pembelajaran teks cerpen berbasis nilai profetik menggunakan media fotonovela layak digunakan dan dapat meningkatkan hasil belajar siswa. Penelitian ini memiliki implikasi yaitu menghasilkan materi pembelajaran teks cerpen berbasis nilai profetik menggunakan media fotonovela yang dapat digunakan guru dan juga siswa dalam proses belajar mengajar, dan juga membantu siswa dalam memahami teks cerpen, karena media tersebut dikemas berdasarkan kebutuhan dan kesaharian siswa. Sehingga secara tidak langsung dapat membentuk karakter siswa dengan menerapkan nilai-nilai profetik.

Kata kunci : materi pembelajaran, teks cerpen, media fotonovela

ABSTRACT

AYU ANDINI, NIM 8196191006. Development of Short Story Text Learning Materials Based on Prophetic Values Using Photonovela Media for Class XI Students of Hafsyah Health Vocational School Medan. Thesis: Indonesian Language and Literature Education. Medan State University Postgraduate Program. 2021.

The results of this study indicate that the development process includes the stages of needs analysis, material analysis, and product development. The results of the validation from the material experts include, the feasibility of content, the feasibility of presentation and the feasibility of language which is stated to be very good with an overall average percentage of 90%. Then, the validation from media design experts was stated to be very good with an average percentage of 86%. The response or responses given by the Indonesian language teacher to the quality of short story text learning material based on prophetic values using the photonovela media was stated to be very good with a percentage of 95.5%. Furthermore, individual trials were declared good with an average percentage of 84.5%, small group trials were declared very good with an average percentage of 88.5%, and wider trials were stated to be very good with an average percentage of 97.7%. The results of obtaining the average score of students before studying the short story text based on prophetic values using the fotonovela media were stated to be sufficient with an average of 64.6%, while the average score of the students after studying the short story texts based on prophetic values using the fotonovela media was stated to be good with a percentage an average of 84.5%. The difference obtained is 20% from before and after using the developed product. It can be concluded that short story text learning material based on prophetic values using fotonovela media is feasible and can improve student learning outcomes. This research has implications, namely producing short story text learning materials based on prophetic values using fotonovela media that can be used by teachers and students in the teaching and learning process, and also helps students understand short stories text, because the media is packaged based on the needs and interests of students. So that it can indirectly shape the character of students by applying prophetic values.

Key words: learning materials, short stories text, photonovelas media
