## ABSTRACT

Nurmayani Br. Tarigan: Survey of student satisfaction levels in the learning process of high school physical education in Tanjung Morawa sub-district during the Covid-19 pandemic in 2020 (Thesis Advisor: Dr. Muhammad Irfan, M.Or), Thesis, Medan: Faculty of Sports Science, Medan State University 2021.

The purpose of this study was to increase student satisfaction in learning physical education during the Covid-19 pandemic, to know the level of student satisfaction in the learning process during the Covid-19 pandemic and to find out the percentage of students filling out the questionnaires needed by students in order to increase student satisfaction during the learning process. physical education took place during the covid-19 pandemic.

This study aims to determine the level of student satisfaction in the physical education learning process taking place during the Covid-19 pandemic. The population and sample in this study were 30 students in each class at the target school. The percentage of students' answers in SMA in Tanjung Morawa sub-district was 19% very satisfied, 43% said they were satisfied, 26% said they were quite satisfied, 10% said they were not satisfied and 2% said they were very dissatisfied. The biggest value is the satisfied category with a percentage of 43%, so it is suggested that teachers be more creative and innovative in teaching so that students are more advanced and can excel during the Covid-19 pandemic.

After the researcher examined the SMA in Tanjung Morawa sub-district, the researcher wanted to know the level of student satisfaction in learning physical education during the Covid-19 pandemic, therefore it can be concluded that the level of student satisfaction has a satisfied category and these results can be seen and used as benchmarks by the teacher. so that it can be even better in carrying out the physical education learning process during the Covid-19 pandemic and teachers must provide material that is easy to understand, can improve learning outcomes and student motivation as desired.
