

ABSTRAK

Muthia Tresna. 5153142014. Hubungan Kesiapan Praktek Dan Kemampuan Mengolah Kue Indonesia Dengan Minat Berwirausaha SMK Pariwisata Imelda Medan. Pendidikan Kesejahteraan Keluarga. Prodi Pendidikan Tata Boga. Fakultas Teknik Universitas Negeri Medan. 2021

Penelitian ini bertujuan untuk mengetahui: (1) Kesiapan Praktek siswa (2) Kemampuan siswa dalam mengolah kue Indonesia. (3) Minat Berwirausaha siswa. (4) Hubungan Kesiapan Praktek siswa dengan minat berwirausaha. (5) Hubungan Kemampuan Mengolah Kue Indonesia dengan Minat Berwirausaha. (6) Hubungan Kesiapan Praktek Siswa dan Kemampuan Mengolah Kue Indonesia dengan Minat Berwirausaha. Desain penelitian adalah deskriptif korelasional. Lokasi penelitian di SMK Pariwisata Imelda Medan. Waktu penelitian Oktober - Desember 2020. Populasi dalam penelitian ini adalah seluruh siswa kelas XI SMK Pariwisata Imelda Medan. Teknik pengambilan sampel secara *Total Sampling* sehingga jumlah sampel berjumlah 60 siswa. Teknik analisis data secara deskriptif data, uji kecenderungan, uji persyaratan analisis dengan uji normalitas dan uji linieritas, uji hipotesis dengan korelasi *product moment*, korelasi parsial dan korelasi ganda.

Berdasarkan hasil penelitian ini menunjukkan bahwa tingkat kecenderungan Kesiapan praktek siswa dan minat berwirausaha termasuk kategori cenderung cukup masing-masing sebesar 90,00 persen dan 85,00 persen. Tingkat kecenderungan kemampuan mengolah kue Indonesia siswa termasuk kategori cenderung tinggi sebesar 93,30 persen. Hasil analisis korelasi parsial terdapat hubungan yang positif dan signifikan antara kesiapan praktek dengan minat berwirausaha dengan nilai $r_{yx1x2} = 0,251$ pada taraf signifikan 5 persen. Hasil analisis korelasi parsial terdapat hubungan yang positif dan signifikan antara kemampuan mengolah kue Indonesia dengan minat berwirausaha dengan nilai $r_{yx2x1} 0,341$ pada taraf signifikan 5 persen. Hasil analisis koefisiensi korelasi ganda terdapat hubungan yang positif dan signifikan antara kesiapan praktek dan kemampuan mengolah kue Indonesia dengan minat bewirausaha dengan nilai $R_{yX1X2} = 0,456$ pada taraf signifikan 5 persen. Artinya semakin tinggi kesiapan praktek siswa dan kemampuan mengolah kue Indonesia maka semakin tinggi minat berwirausaha siswa.

ABSTRACT

Muthia Tresna. 5153142014. The Relationship between Practice Readiness and Ability to Process Indonesian Cakes with Entrepreneurial Interests at Imelda Tourism Vocational School, Medan. Family Welfare Education. Catering Education Study Program. Faculty of Engineering, State University of Medan. 2021

This study aims to determine: (1) Students' Practical Readiness (2) Students' ability to process Indonesian cakes. (3) Student Entrepreneurial Interest. (4) The relationship between students' practical readiness and interest in entrepreneurship. (5) The Relationship between Indonesian Cake Processing Ability and Entrepreneurial Interest. (6) The Relationship between Students' Practical Readiness and Ability to Process Indonesian Cakes with Entrepreneurial Interest. The research design is correlational descriptive. The research location is at the Imelda Tourism Vocational School in Medan. Research time October - December 2020. The population in this study were all students of class XI SMK Tourism Imelda Medan. The sampling technique is Total Sampling so that the number of samples is 60 students. Data analysis techniques are descriptive data, trend test, analysis requirements test with normality test and linearity test, hypothesis test with product moment correlation, partial correlation and multiple correlation.

Based on the results of this study, it is shown that the level of students' practical readiness and interest in entrepreneurship are categorized as fairly inclined at 90.00 percent and 85.00 percent, respectively. The tendency level of students' ability to process Indonesian cakes is included in the high category of 93.30 percent. The results of the partial correlation analysis show that there is a positive and significant relationship between practice readiness and interest in entrepreneurship with a value of $r_{yx.x_2} = 0.251$ at a significant level of 5 percent. The results of the partial correlation analysis show that there is a positive and significant relationship between the ability to process Indonesian cakes and the interest in entrepreneurship with an $r_{yx_2x_1}$ value of 0.341 at a significant level of 5 percent. The results of the multiple correlation coefficient analysis show that there is a positive and significant relationship between practical readiness and the ability to process Indonesian cakes with an interest in entrepreneurship with a value of $R_{yX_1X_2} = 0.456$ at a significant level of 5 percent. This means that the higher the students' practical readiness and ability to process Indonesian cakes, the higher the students' interest in entrepreneurship.
